to me ▾

Hello,

I received the revised article but, I am afraid, there will be some delay because the university is closed until the end of March because the corona virus although we are trying to work from home but it is not as easy as to work from the office. I will let you know when things get more clear.

Hoping you are in good health!

Best,
Gergana Veltcheva

Proof for corrections and Copyright Transfer Agreement External Inbox x

Stefan Dragoev <logos2000lt@gmail.com>
to me, fungsi_tip, diana.puspitasari

Thu, Aug 27, 2020, 1:52 AM

Dear Dr. Endang Retno Wedowati,

Dear Co-authors,

We enclose the unfinished proof of your article entitled: "**Kimpul (*Xanthosoma sagittifolium*) liquid sugar with a low glycaemic index**".

Please check within 72 hours and, if necessary, correct the letters or texts in yellow.

In Tables 1 to 5 incl. have to add the confidence intervals of variation (standard deviation or standard error) of the mean values. For example 5.28 ± 0.31 a. The letters in the tables do not show the probability of rejecting the null hypothesis. Is $p >$ or ≤ 0.05 , or 0.01, or 0.001? Similarly, You have to indicate in parentheses in the text p , where you talk about significant differences or the absence of such!

The same goes for the Figures. Nowhere in the columns is the confidence interval for standard deviation of means.

The text of the article has been technically adjusted to meet the requirements of the journal for the layout of such articles.

The SI system was used for the units of measurement. Units are indicated by commas, not in parentheses. There are many similar technical corrections in the References section too.

We kindly ask you not to change this technical style and to comply with our technical recommendations at the link: <https://www.ijfsab.com/index.php/ijfsab/about/submissions#authorGuidelines> Otherwise, your manuscript will be rejected.

You have to sign and return back a scan copy of [Copyright Transfer Agreement](#) form!

I look forward to your quick response.

Sincerely yours

Aug 28, 2020, 1:13 PM

Dear Prof. Stefan Dragoev
Editor in Chief
International Journal
Food Science and Applied Biotechnology

With this, we submit our revised manuscript according to the suggestions given. We need to inform, that Table 5 does not add the confidence intervals of variation, because it is not a statistical test result, but the result of the Analytical Hierarchy Process calculation. Besides, we also send a Copyright Transfer Agreement signed by all authors.

Thank you for your cooperation

Sincerely,
Endang Retno Wedowati
Universitas Wijaya Kusuma Surabaya, Indonesia
