# Transition headline

Let's start with the first set of slides

**//** Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.

# This is a slide title

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

# Big concept

Bring the attention of your audience over a key concept using icons or illustrations

# You can also split your content

## White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

## Black

Is the color of ebony and of outer space. It has been the symbolic color of elegance, solemnity and authority.

# In two or three columns

## Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

## Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

## Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

# A picture is worth a thousand words

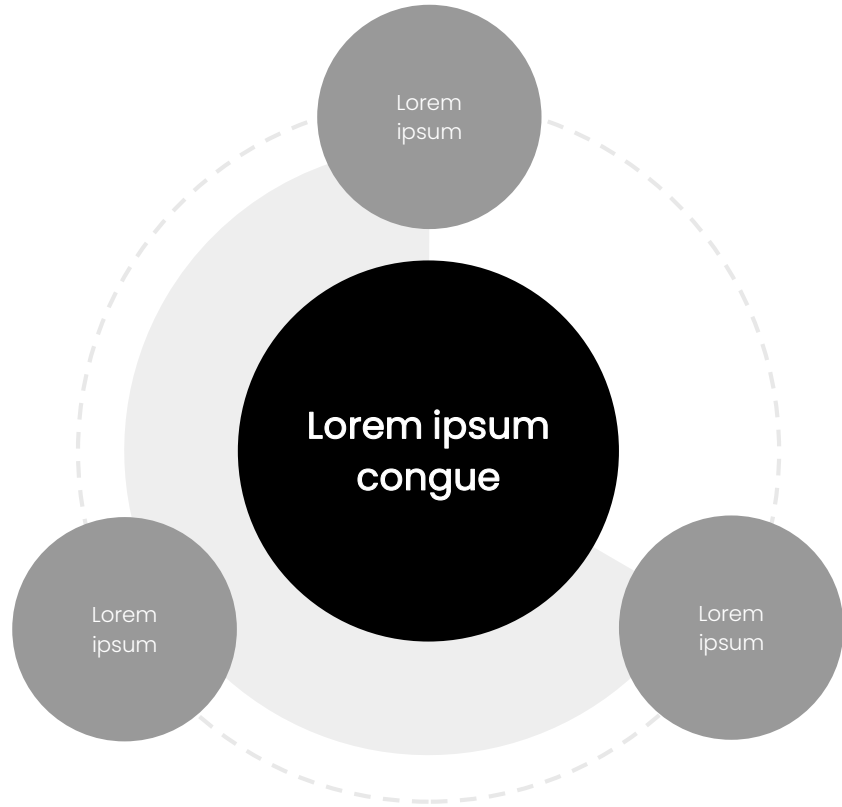

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

A circular frame containing a photograph of a desk. In the center is a large, black, three-dimensional letter 'A'. To its right is a wooden block with the letter 'S' carved into it. To the left is a potted plant in a white pot with a lace-like top. In the foreground, a smartphone lies on the desk, displaying a large white arrow pointing downwards. The background shows a window with light coming through.
