Let's start with the first set of slides

Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.

This is a slide title

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

Big concept

Bring the attention of your audience over a key concept using icons or illustrations

You can also split your content

White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

Black

Is the color of ebony and of outer space. It has been the symbolic color of elegance, solemnity and authority.

In two or three columns

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

A picture is worth a thousand words

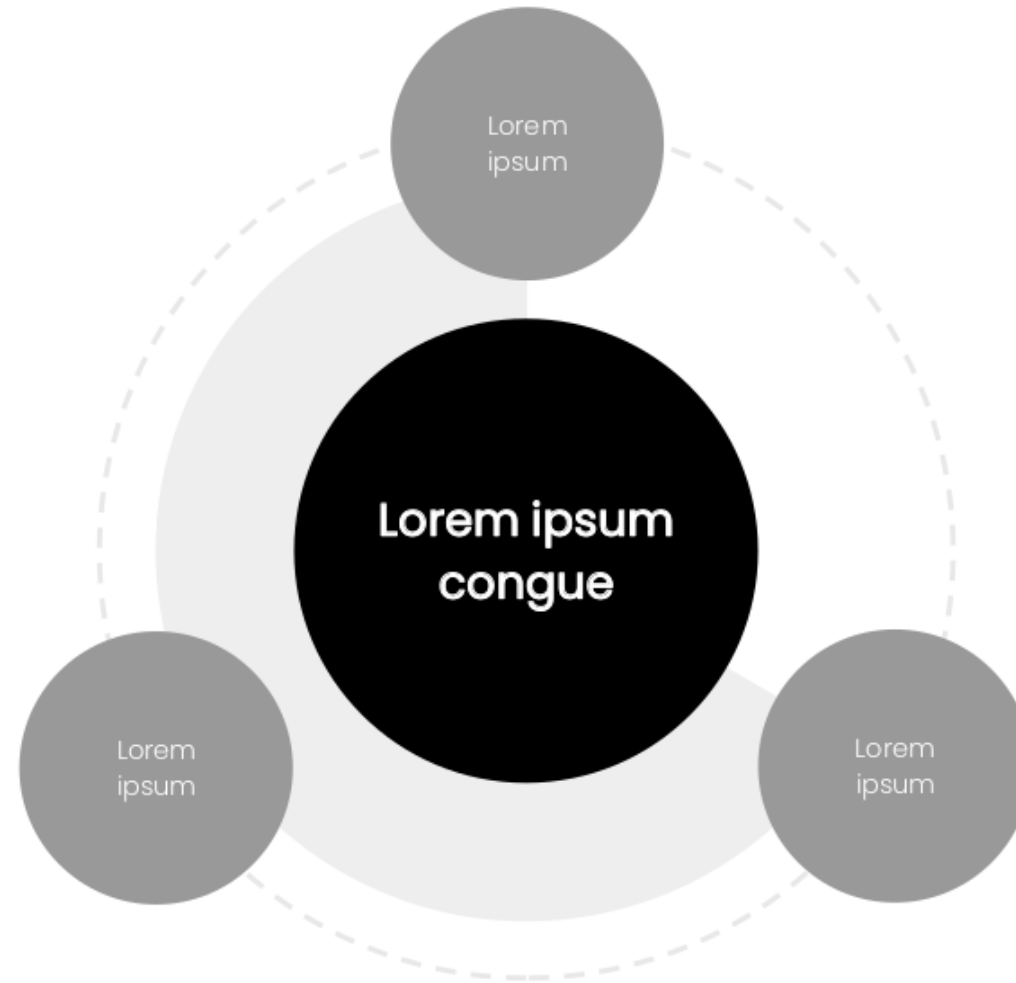

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

A large circular image showing a wooden table with a plant in a white pot, a large black letter 'A', and a wooden block with the letter 'S'. The scene is lit from a window in the background.

And tables to compare data

Maps

The background features a large, faint, light gray circle centered on the page. The number 89,526,124 is written in a large, bold, black sans-serif font across the middle of the circle. The overall design is minimalist and modern.
