**Tijdstippen diverse ledenvergaderingen tijdens voorjaarsvergadering:**

Nederlandse Vereniging van Maag-Darm-Leverartsen	21 maart, 08.00 uur – Zaal 81-82-83
V & VN MDL	21 maart, 11.45 uur – Beneluxhal
Vergadering Sectie Inflammatoire Darmziekten (IBD)	21 maart, 13.00 uur – Parkzaal

# **Belangrijke mededeling over de aanwezigheid van farmaceutische industrieën**

*Aan alle deelnemers aan de voorjaarsvergadering op 20 en 21 maart 2014*

De Nederlandse Vereniging voor Gastroenterologie kent een jarenlange samenwerking met de farmaceutische industrie. De vereniging stelt de farmaceutische industrie in de gelegenheid aanwezig te zijn bij de wetenschappelijke vergaderingen met een stand. Mede hierdoor kan de vereniging haar wetenschappelijke bijeenkomsten organiseren.

De Geneesmiddelenwet zegt dat - onder strikte voorwaarden - de farmaceutische industrie alleen reclame mag maken voor receptgeneesmiddelen voor personen die bevoegd zijn om dergelijke geneesmiddelen voor te schrijven. Alle andere personen (inclusief bijvoorbeeld verpleegkundigen, endoscopie-assistenten en biochemici) worden beschouwd als "publiek". De farmaceutische industrie mag geen reclame maken voor receptgeneesmiddelen voor publiek.

De Nederlandse Vereniging voor Gastroenterologie is een wetenschappelijke vereniging voor personen die beroepsmatig betrokken zijn bij zorg, onderwijs en onderzoek ten behoeve van patiënten met maag-, darm- en leveraandoeningen. Dat betekent dat ook personen die geen arts zijn, lid van de NVGE zijn. De aanwezigheid van artsen, niet-artsen en farmaceutische industrieën tijdens de voorjaarsvergadering kan de NVGE ongewild in aanraking brengen met de inspectie voor de gezondheidszorg, sectie reclametoezicht, en daarmee in diskrediet worden gebracht. Dat willen wij uiteraard voorkomen.

In verband met de Gedragscode Geneesmiddelenreclame van de CGR en de aan het NVGE-congres verbonden expositie van farmaceutische producten, medische instrumenten en voedingsmiddelen, zal bij uw congresregistratie via de NVGE-website worden gevraagd naar uw bevoegdheid om medicijnen voor te schrijven.

Alle congresdeelnemers dragen verplicht een congresbadge waarop behalve de naam ook beroep/ functie staat aangegeven. Farmaceutische standhouders benaderen uitsluitend congresdeelnemers die de bevoegdheid hebben om receptgeneesmiddelen voor te schrijven of ter hand te stellen. Om dit extra te verduidelijken zal tijdens het voorjaarscongres worden gekozen voor verschillende kleuren congres-badges.

Uit het bovenstaande volgt dat aanwezige reclame-uitingen en merkproductinformatie van farmaceutische industrieën alleen gericht zijn op personen die bevoegd zijn om de betreffende geneesmiddelen voor te schrijven. Wij maken u erop attent dat het voor niet-artsen dan ook niet is toegestaan de stands van de aanwezige farmaceutische industrieën te bezoeken.

De NVGE en farmaceutische industrie (sponsoren) vertrouwen erop u met bovenstaande voldoende te hebben geïnformeerd.

Het bestuur van de NVGE

---

## VOORWOORD

---

Hierbij treft u het volledige programma aan van het voorjaarscongres op 20 en 21 maart in NH Conference Center Koningshof te Veldhoven. Zoals gebruikelijk wordt ons congres voorafgegaan door het cursorisch onderwijs op 19 maart, deze keer over oncologie, waarvan u het programma aantreft op bladzijde 6 en 7.

Er is in het voorjaar traditiegetrouw veel ruimte voor voordrachten van wetenschappelijk onderzoek. Dit wordt aangevuld met uiteenlopende symposia, te beginnen met een multidisciplinair symposium over darmfalen op donderdagmorgen.

In de Baroniezaal is zowel op donderdag als op vrijdag de Dutch Experimental Gastroenterology and Hepatology Meeting, een gezamenlijk initiatief van de Sectie Experimentele Gastroenterologie van de NVGE en de Sectie Basale Hepatologie van de NVH. Dit jaar staat dit programma in het teken van *translational medicine*. Onze gastspreker professor E.M. El-Omar – Aberdeen University, UK – zal dit thema ook uiteenzetten in de afsluitende plenaire sessie in de Brabantzaal met een voordracht getiteld *Challenges of Translational GI Research* om 18.00 uur in de Brabantzaal.

Na de lunch is er naast uiteenlopende parallelsessies een symposium van de Nederlandse Vereniging voor Gastrointestinale Chirurgie in het Auditorium en een minisymposium over voeding in de dagelijkse praktijk.

Om 17.00 uur vindt in de Brabantzaal de uitreiking plaats van de Frieda den Hartog Jager Prijs aan professor dr. J.H. Kleibeuker, die aansluitend een ere-voordracht houdt getiteld *Pathogenese en preventie van colorectaal carcinoom: the continuing story*. Om 17.30 uur volgt de President Select, zoals gebruikelijk plenair, met om 18.00 uur de voordracht over translationeel onderzoek van gastspreker professor E.M. El-Omar, editor van GUT.

Op vrijdagochtend is na de ALV van de NVMDL weer veel ruimte voor vrije voordrachten van onder meer de Sectie Gastrointestinale Endoscopie en een klinisch NVH-symposium. Na de koffiepauze wordt in de Brabantzaal gerapporteerd over de resultaten van de PERK-studie met aansluitend aandacht voor de nieuwe richtlijn antistolling. In zaal 80 vindt het NESPEN symposium plaats. Gedurende de gehele vrijdag zijn er genodigde sprekers en vrije voordrachten van de DEGH.

Na de lunch volgt in de Brabantzaal een symposium over poliepen en CRC met het oog op het bevolkingsonderzoek, en wederom abstractsessies van NVGE/NVGIC, NVGE en IBD. In de Beneluxhal wordt door de Verpleegkundigen en Verzorgenden Nederland MDL (V&VN MDL) een eigen programma met lezingen verzorgd, met daarnaast een keuze uit verschillende subsessies.

Kortom, een gevarieerd en inspirerend programma.

Dr. J.J. Keller, secretaris

Dr. K. van der Linde, bestuurslid

Woensdag 19 maart 2014

Cursuscommissie

Prof. dr. P.D. Siersema (voorzitter), MDL-arts, UMC Utrecht  
Mevr. dr. C.M. Bakker, MDL-arts, Atrium MC, Heerlen  
Prof. dr. U.H.W. Beuers, MDL-arts, AMC, Amsterdam  
Drs. M.P.J. van den Broek, AIOS MDL, LUMC, Leiden  
Dr. J. Heisterkamp, chirurg, St. Elisabeth Ziekenhuis, Tilburg  
Mevr. dr. A.M.J. Langers, MDL-arts, LUMC, Leiden  
Drs. M.C.P. Pennings, AIOS MDL, UMC St Radboud, Nijmegen  
Dr. B.J. Veldt, MDL-arts, Reinier de Graaf Gasthuis, Delft  
Dr. J. Vecht, MDL-arts, Isala Klinieken, Zwolle  
Dr. R.A. de Vries, MDL-arts, VUmc, Amsterdam  
Dr. P.J. Wahab, MDL-arts, Rijnstate Ziekenhuis, Arnhem

**Thema: Oncologie**

**Poliepen**

voorzitters: U.H.W. Beuers en P.D. Siersema

---

<b>Cursorisch onderwijs in maag-darm-leverziekten</b>	<b>Auditorium</b>
---	-------------------

---

- 16.20 – 16.40 Hoe voorkom ik IBD- en IBD-medicatie gerelateerde carcinomen  
*Dr. B. Oldenburg, MDL-arts, UMC Utrecht*
- 16.40 – 17.10 Pauze
- 17.10 – 17.40 Rol van pathologisch onderzoek bij de keuze van chemo-therapeutische behandeling van CRC  
*Prof. dr. C.J.A. Punt, medisch oncoloog, AMC, Amsterdam*
- 17.40 – 18.05 De chirurgische en endoscopische behandeling van CRC en complicaties, en hoe licht ik mijn patiënt voor?  
*Dr. W.J.H.J. Meijerink, chirurg, VU medisch centrum, Amsterdam*

### Potpourri

- 18.05 – 18.35 Hobbel en bobbels in het maagdarmkanaal: NET en GIST  
*Dr. H.M. van Dullemen, MDL-arts, UMC Groningen*
- 18.35 – 18.55 Wat is de rol van de MDL-arts bij lymfomen van het maagdarmkanaal  
*Dr. H. Boot, MDL-arts, Antoni van Leeuwenhoekhuis, Amsterdam*
- 18.55 – 19.15 Help, een tumor van het periampullaire gebied: hoe pak ik dat aan als MDL-arts?  
*Dr. J.W. Poley, MDL-arts, Erasmus MC, Rotterdam*
- 19.15 Einde programma
- 19.15 – 20.45 Diner

*De cursuscommissie verwacht van de MDL-artsen i.o. dat ze de Cursus Klinische Hepatologie(NVH) tijdens de Dutch Liver Week éénmaal bezoeken in het tweede deel van de MDL-opleiding (jaar vier tot zes).*

Op het cursorisch onderwijs zijn conform de eisen van het Centraal Register Kort Beroepsonderwijs leveringsvoorraarden van toepassing. Informatie vindt u op de onderwijspagina van [www.mdl.nl](http://www.mdl.nl) en [www.nvge.nl](http://www.nvge.nl).

## Programma donderdag 20 maart 2014

Donderdag	Brabantzaal	Baroniezaal	Auditorium	Parkzaal
09.00	Ontvangst en koffie	Ontvangst en koffie	Vrije voordrachten Ned. Vereniging voor Gastroenterologie pagina 10	Ontvangst en koffie
10.00 - 11.30	Vrije voordrachten Ned. Vereniging voor Gastroenterologie pagina 10	DEGH-meeting (aanvang 10.30 uur) pagina 22	Vrije voordrachten Ned. Vereniging voor Gastroinstinale Chirurgie (aanvang 09.30) pagina 18	Multidisciplinair symposium Darmfalen (aanvang 09.30) pagina 26
11.30 - 12.00	Ledenvergadering NVGE		Geen programma i.v.m. Ledenvergadering NVGE	Geen programma i.v.m. Ledenvergadering NVGE
12.00 - 13.00	Lunch in expositiehal	Lunch in expositiehal	Lunch in expositiehal	Lunch in expositiehal
13.00 – 15.00	Vrije voordrachten sectie Gastrointestinale Oncologie pagina 12	DEGH-meeting pagina 23	Symposium NVGIC: 'Van anussparende chirurgie tot rectumsparende endoscopie' pagina 20	Vrije voordrachten sectie Inflammatoire Darmziekten pagina 27
15.00 - 15.30	Theepauze	Theepauze + ALV NVH	Theepauze	Theepauze
15.30 - 17.00	Vrije voordrachten Nederlandse Vereniging voor Gastroenterologie pagina 14	DEGH-meeting pagina 24	Symposium NVGIC: 'Uitkomsten en transparantie van de colorectale diagnostiek en chirurgie' pagina 20	Minisymposium: 'Update Voeding in de dagelijkse praktijk' pagina 30
17.00 - 17.30	Uitreiking Frieda den Hartog-Jager Prijs aan prof. dr. J.H. Kleibeuker pagina 16			
17.30 - 18.00	President Select pagina 16			
18.00 – 18.30	State of the art lecture Professor E.M. El-Omar – Aberdeen University, UK pagina 17			
18.30 - 19.30	Borrel in expositiehal			
19.30 - 22.00	Diner Genderzaal			
22.00 - 01.00	Borrel / Muziek in foyer			

## Vrijdag 21 maart 2014

Vrijdag	Brabantzaal	Baroniezaal	Auditorium	Parkzaal
08.30		Posterrondes zaal 19 en 20 (aanvang 09.00)		
09.30 – 11.00	Vrije voordrachten sectie Gastrointestinale Endoscopie pagina 31	Symposium Ned. Vereniging voor Hepatologie pagina 40	Vrije voordrachten Ned. Vereniging voor Gastroenterologie en Gastrointestinale pagina 35	Vrije voordrachten Ned. Vereniging voor Gastroenterologie en sectie Inflammatoire Darmziekten pagina 48

13.00 – 14.00	Lunch expositiehal	Lunch expositiehal	Lunch expositiehal	Lunch expositiehal
14.00 – 15.30	Symposium: CRC Bevolkingsonderzoek pagina 34	DEGH-meeting pagina 45  Abstract and Poster Prizes and goodbye pagina 47	Vrije voordrachten Ned. Vereniging voor Gastroenterologie en Gastrointestinale Chirurgie -pagina 48	Geen programma in deze zaal in de middag
15.30 – 16.00	Afsluiting in expositiehal		Afsluiting in expositiehal	

## Vrijdag 21 maart 2014 - programma V&VN MDL en NESPEN

Vrijdag	Beneluxhal	Zaal 63	Zaal 64	Zaal 80
10.00 – 12.15	Plenair ochtendprogramma V&VN MDL pagina 55			Voordrachten NESPEN, om 10.00. gevolgd door Symposium 'klinisch voedingsonderzoek' pagina 52-53
12.15	Lunch in expo			Lunchbuffet 13.30
13.45 – 15.15	Parallel programma Endoscopie- verpleegkundigen pagina 55	Parallel programma Lever- en IBD- verpleegkundigen pagina 56	Parallel programma Voedingsverpleeg- kundigen en MDL pagina 56	Geen programma in deze zaal in de middag
15.15	Einde programma	Einde programma	Einde programma	

**Voorzitters:** E.J. Schoon en V.M.C.W. Spaander

Voordrachten in het Nederlands, spreektijd 7 minuten, discussietijd 3 minuten

- 10.00      Introductie voorzitter(s) op het programma
- 10.10      Cost effectiveness of Barrett's esophagus surveillance in a prospective followed cohort in the Netherlands (p. 57)  
*S.H. van Olphen<sup>1</sup>, F. Kastelein<sup>1</sup>, E.W. Steyerberg<sup>2</sup>, C.W.N. Looman<sup>2</sup>, M.C.W. Spaander<sup>1</sup>, M.J. Bruno<sup>1</sup>, E.W. Bekker Grob<sup>2</sup> on behalf of the ProBar study group, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center Rotterdam, The Netherlands, <sup>2</sup>Dept of Public Health, Erasmus University Medical Center Rotterdam, The Netherlands*
- 10.20      Does use of NSAIDs, statins and proton pump inhibitors prevent development of esophageal adenocarcinoma among patients with Barrett's esophagus? Results from a multinational population based case control study (p. 58)  
*G.M.C. Masclee<sup>1,2</sup>, P.M. Coloma<sup>1</sup>, E.J. Kuipers<sup>2</sup>, M.C.J.M. Sturkenboom<sup>1,3</sup>, <sup>1</sup>Dept of Medical Informatics, Erasmus University Medical Center, Rotterdam, The Netherlands, <sup>2</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center, Rotterdam, The Netherlands, <sup>3</sup>Dept of Epidemiology, Erasmus University Medical Center, Rotterdam, The Netherlands.*
- 10.30      FISH Biomarkers for the Detection of Dysplasia and Prediction of Malignant Progression in Non dysplastic Barrett's Esophagus (p. 59)  
*M.R. Timmer<sup>1, 2</sup>; C.T.I. Lau<sup>2</sup>; W. Rosmolen<sup>1</sup>; S.L. Meijer<sup>3</sup>; M.G.W. Dijkgraaf<sup>4</sup>; R.C. Mallant Hent<sup>5</sup>; A.H. Naber<sup>6</sup>; A.H. van Oijen<sup>7</sup>; L.C. Baak<sup>8</sup>; P. Scholten<sup>9</sup>; C. Böhmer<sup>10</sup>; P. Fockens<sup>1</sup>; J.J. Bergman<sup>1</sup>; K.K. Krishnadath<sup>1,2</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, Center for Experimental and Molecular Medicine, Academic Medical Center, Amsterdam, <sup>3</sup>Dept of Pathology, Academic Medical Center, Amsterdam, Netherlands. <sup>4</sup>Clinical Research Unit, Academic Medical Center, Amsterdam, <sup>5</sup>Dept. of Gastroenterology, Flevoziekenhuis, Almere, Netherlands. <sup>6</sup>Dept. of Gastroenterology, Tergooiziekenhuizen, Hilversum, <sup>7</sup>Dept. of Gastroenterology, Medisch Centrum Alkmaar, Alkmaar, <sup>8</sup>Dept. of Gastroenterology, Onze Lieve Vrouwe Gasthuis, Amsterdam, <sup>9</sup>Dept. of Gastroenterology, Sint Lucas Andreas Ziekenhuis, Amsterdam, Netherlands. <sup>10</sup>Dept. of Gastroenterology, Spaarneziekenhuis, Hoofddorp, Netherlands.*
- 10.40      SOX2 as a novel marker to predict neoplastic progression in Barrett's esophagus (p. 60)  
*S.H. van Olphen<sup>1, 2</sup>, K. Biermann<sup>2</sup>, F. Kastelein<sup>1</sup>, B.E. Hansen<sup>1</sup>, H.A. Stoop<sup>2</sup>, M.C.W. Spaander<sup>1</sup>, L.H.J. Looijenga<sup>2</sup>, M.J. Bruno<sup>1</sup> on behalf of the ProBar study group, <sup>1</sup> Dept of Gastroenterology and Hepatology, Erasmus University Medical Center Rotterdam, The Netherlands, <sup>2</sup>Dept of Pathology, Erasmus University Medical Center Rotterdam, The Netherlands*

Donderdag 20 maart 2014

- 10.50 The influence of prophylactic proton pump inhibitor treatment on the development of symptomatic marginal ulceration: a historic cohort study (p. 61)  
*U.K. Coblijn<sup>1</sup>, S.M.M. de Castro<sup>1</sup>, S.M. Lagarde<sup>2</sup>, S.D. Kuiken<sup>3</sup>, B.A. van Wagensveld<sup>1</sup>, <sup>1</sup>Sint Lucas Andreas Ziekenhuis, Dept of General Surgery, <sup>2</sup>Academic Medical Center Amsterdam, Dept of General Surgery, <sup>3</sup>Sint Lucas Andreas Ziekenhuis, Dept of Gastroenterology*
- 11.00 **MLDS voordracht**  
A prospective study on intake of meat and heme iron, nitrite, nitrate and nitrosamines as risk factors for adenocarcinoma of esophagus (EAC) and gastric cardia (GCA), esophageal squamous cell carcinoma (ESCC), and Barrett's esophagus (BE) (p. 62)  
*P.A. van den Brandt<sup>1</sup>, A.P. Keszei<sup>1</sup>, A.L.C. Driessen<sup>2</sup>, C.J.R. Huyseentruyt<sup>2</sup>, Y.C.A. Keulemans<sup>3</sup>, R.A. Goldbohm<sup>4</sup>, L.J. Schouten<sup>1</sup>, <sup>1</sup>School for Oncology and Developmental Biology (Grow), Dept of Epidemiology, Maastricht University, Maastricht, the Netherlands <sup>2</sup>School for Oncology and Developmental Biology (Grow), Dept of Pathology, Maastricht University, Maastricht, The Netherlands <sup>3</sup>Dept of Gastroenterology, Maastricht University Medical Centre, Maastricht, the Netherlands <sup>4</sup>Dept of Prevention and Health, TNO Quality of Life, Leiden, The Netherlands*
- 11.15 **MLDS voordracht**  
Human buccal epithelium acquires microbial hyporesponsiveness at birth, a role for secretory leukocyte protease inhibitor (p. 63)  
*C.L. Menckeberg<sup>1,8</sup>, J. Hol<sup>1,2,3,8</sup>, L.F. de Ruiter<sup>1,2</sup>, H.C. Raatgeep<sup>1</sup>, Y. Simons Oosterhuis<sup>1</sup>, D. J. Lindenbergh Kortleve<sup>1</sup>, A.M. Korteland van Male<sup>1</sup>, S. El Aidy<sup>4</sup>, P.P.E. van Lierop<sup>1</sup>, M. Kleerebezem<sup>4</sup>, M. Groeneweg<sup>5</sup>, G. Kraai<sup>6</sup>, B.E. Elink Schuurman<sup>2</sup>, J.C. de Jongste<sup>2</sup>, E.E.S. Nieuwenhuis<sup>1,7,8</sup>, J.N. Samsom<sup>1,8</sup> <sup>1</sup>Laboratory of Pediatrics, division of Gastroenterology and Nutrition, Erasmus MC, Rotterdam, The Netherlands <sup>2</sup>Dept of Pulmonary diseases, Sophia Children's Hospital, Rotterdam, The Netherlands <sup>3</sup>Dept of Pediatrics, University Hospital Ghent, Ghent, Belgium <sup>4</sup>Laboratory of Microbiology and Host Microbe Interactomics Group, Wageningen University, Wageningen, The Netherlands <sup>5</sup>Maastricht UMC+, Dept of Pediatrics, Maastricht, The Netherlands <sup>6</sup>Dept of Molecular Cell Biology and Immunology, VU University Medical Center, Amsterdam, The Netherlands <sup>7</sup>Wilhelmina Children's Hospital, Utrecht, The Netherlands <sup>8</sup>Authors have equally contributed*
- 11.30 Korte ledenvergadering Nederlandse Vereniging voor Gastroenterologie
- 12.00 Lunch in expositiehal

**Voorzitters:** G.H. de Groot en K.M.A.J. Tytgat

Voordrachten in het Nederlands, spreektijd 7 minuten, discussietijd 3 minuten

- 13.00 Inleiding op de sessie door de voorzitter
- 13.10 Impact of neoadjuvant chemoradiotherapy on prognostic factors for survival in patients with esophageal or junctional cancer (p. 64)  
*J. Shapiro<sup>1</sup>, H.F. Lingsma<sup>2</sup>, P. van Hagen<sup>1</sup>, A.K. Talsma<sup>1</sup>, B.P.L. Wijnhoven<sup>1</sup>, E.W. Steyerberg<sup>2</sup>, A. van der Gaast<sup>3</sup>, J.J.B. van Lanschot<sup>1</sup>, On behalf of the CROSS Study Group, <sup>1</sup>Dept of Surgery, <sup>2</sup>Dept of Public Health, <sup>3</sup>Dept of Med Oncology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands*
- 13.20 Palliative care of esophageal cancer in the Netherlands: determinants associated with treatment decisions (p. 65)  
*J.L. Opstelten<sup>1</sup>, L.R. de Wijkerslooth<sup>2</sup>, M. Leenders<sup>1</sup>, D.J. Bac<sup>3</sup>, M.A. Brink<sup>2</sup>, B.C.A.J. Loffeld<sup>4</sup>, M.J.F. Meijnen-Bult<sup>5</sup>, I.M. Minderhoud<sup>6</sup>, M.A.M.T. Verhagen<sup>7</sup>, M.G.H. van Oijen<sup>1</sup>, P.D. Siersma<sup>1</sup>, <sup>1</sup>Universit Medical Center Utrecht, Utrecht, <sup>2</sup>Meander Medical Center, Amersfoort, <sup>3</sup>Hospital Gelderse Vallei, Ede, <sup>4</sup>Zuwe Hofpoort Hospital, Woerden, <sup>5</sup>St Jansdal Hospital, Harderwijk, <sup>6</sup>Tergooi Hospitals, Hilversum/Blaricum, <sup>7</sup>Diakonessenhuis, Utrecht/Zeist, The Netherlands*
- 13.30 GATA6 expression in Barrett's metaplasia development and progression towards malignancy (p. 66)  
*K. Pavlov<sup>1</sup>, H. Judith<sup>2</sup>, C. Meijer<sup>3</sup>, W. Boersma<sup>1</sup>, F.T. Peters<sup>1</sup>, A. van den Berg<sup>4</sup>, A. Karrenbeld<sup>4</sup>, J.T.M. Plukker<sup>2</sup>, F.A.E. Kruijt<sup>3</sup>, J.H. Kleibeuker<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, <sup>2</sup>Dept of Surgical Oncology, <sup>3</sup>Dept of Medical Oncology, <sup>4</sup>Dept of Pathology, University of Groningen, University Medical Center Groningen, Groningen, The Netherlands*
- 13.40 Clinicopathological characteristics of pancreatic resection specimens of inherited / familial versus sporadic pancreatic ductal adenocarcinoma (p. 67)  
*F. Harinck<sup>1</sup>, F. Boersma<sup>1</sup>, I. Konings<sup>1</sup>, P. Fockens<sup>2</sup>, J.E. van Hooft<sup>2</sup>, M. Dijkgraaf<sup>3</sup>, W.N. Dirijens<sup>4</sup>, K. Biermann<sup>4</sup>, M.J. Bruno<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, Rotterdam, <sup>2</sup>Dept of Gastroenterology and Hepatology, and <sup>3</sup>Clinical Research Unit, Academic Medical Center, Amsterdam, <sup>4</sup>Dept of Pathology, Erasmus MC, Rotterdam, The Netherlands*
- 13.50 Psychological burden of repeated pancreatic surveillance in high risk individuals for pancreatic cancer (p. 68) *I.C.A.W. Konings<sup>1</sup>, G.N. Sidharta<sup>2</sup>, F. Harinck<sup>1</sup>, C. Aalfs<sup>3</sup>, E. Smets<sup>4</sup>, J.W. Poley<sup>1</sup>, A. Wagner<sup>5</sup>, J.E. van Hooft<sup>6</sup>, A. van Rens<sup>7</sup>, P. Fockens<sup>6</sup>, M.J. Bruno<sup>1</sup>, E.M.A. Bleiker<sup>2,7</sup>, On behalf of the Dutch research group on pancreatic cancer surveillance in high risk individuals, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, <sup>2</sup>Division of Psychosocial Research and Epidemiology, The Netherlands Cancer Institute, Antoni van Leeuwenhoek Hospital, Amsterdam, <sup>3</sup>Dept of Clinical Genetics, and <sup>4</sup>Dept of Medical Psychology, Amsterdam Medical Center, University Medical Center, Amsterdam, <sup>5</sup>Dept of Clinical Genetics, Erasmus MC, University Medical Center, Rotterdam, <sup>6</sup>Dept of Gastroenterology and Hepatology, Amsterdam Medical Center, University Medical Center Amsterdam, <sup>7</sup>Family Cancer Clinic, The Netherlands Cancer Institute, Antoni van Leeuwenhoek, Amsterdam, The Netherlands*

- 14.00 Structural variant breakpoint detection in advanced colorectal cancer (p. 69)  
*E. van den Broek<sup>1</sup>, O. Krijgsman<sup>1</sup>, D. Sie<sup>1</sup>, J.C. Haan<sup>1</sup>, M. Komor<sup>1</sup>, J. Traets<sup>1</sup>, D.A.M. Heideman<sup>1</sup>, M.A. van de Wiel<sup>2</sup>, I.D. Nagtegaal<sup>3</sup>, C.J.A. Punt<sup>4</sup>, B. Carvalho<sup>1</sup>, B. Ylstra<sup>1</sup>, G.A. Meijer<sup>1</sup>, R.J.A. Fijneman<sup>1</sup>, <sup>1</sup>Dept of Pathology, and <sup>2</sup>Dept of Epidemiology and Biostatistics, VU University Medical Center, Amsterdam, <sup>3</sup>Dept of Pathology, Radboud University, Nijmegen Medical Center, Nijmegen, <sup>4</sup>Dept of Medical Oncology, Academic Medical Center, Amsterdam, The Netherlands*
- 14.10 Feasibility of adjuvant laparoscopic hyperthermic intraperitoneal chemotherapy in a short stay setting in patients with colorectal cancer at high risk of peritoneal carcinomatosis (p. 70)  
*D.A.M Sloothaak<sup>1</sup>, T.J. Gardenbroek<sup>1</sup>, J.Crezee<sup>3</sup>, W.A. Bemelman<sup>1</sup>, C.J.A Punt<sup>2</sup>, C.J. Buskens<sup>1</sup>, P.J. Tanis<sup>1</sup>, <sup>1</sup>Dept of Surgery, <sup>2</sup>Dept of Medical Oncology, and <sup>3</sup>Dept of Radiation Oncology, Academic Medical Center, Amsterdam, The Netherlands*
- 14.20 Urological procedures in patients with peritoneal carcinomatosis of colorectal cancer treated with HIPEC: Morbidity and survival analysis (p. 71)  
*H.J. Braam<sup>1</sup>, T.R. van Oudheusden<sup>2</sup>, I.H. de Hingh<sup>2</sup>, S.W. Nienhuijs<sup>2</sup>, D. Boerma<sup>1</sup>, M.J. Wiezer<sup>1</sup>, B. van Ramshorst<sup>1</sup>, <sup>1</sup>Dept of Surgery, St. Antonius Hospital, Nieuwegein, <sup>2</sup>Dept of Surgery, Catharina Hospital, Eindhoven, The Netherlands*
- 14.30 Cytoreduction and hyperthermic intraperitoneal chemotherapy: a feasible and effective option for colorectal cancer patients after emergency surgery in the presence of peritoneal carcinomatosis (p. 72)  
*T.R. van Oudheusden<sup>1</sup>, H.J. Braam<sup>2</sup>, S.W. Nienhuijs<sup>1</sup>, M.J. Wiezer<sup>2</sup>, B. van Ramshorst<sup>2</sup>, M.D.P. Luyer<sup>1</sup>, I.H.J.T. de Hingh<sup>1</sup>, <sup>1</sup>Dept of Oncologic Surgery, Catharina Hospital, Eindhoven, <sup>2</sup>Dept of Surgery, St. Antonius Hospital, Nieuwegein, The Netherlands*
- 14.40 Oncological follow up of the Stent-In 2 trial: cancer recurrence after curative treatment of malignant colonic obstruction (p. 73)  
*D.A. Sloothaak<sup>1</sup>, M.W. van den Berg<sup>2</sup>, M.G. Dijkgraaf<sup>3,4</sup>, P. Fockens<sup>2,4</sup>, P.J. Tanis<sup>1,4</sup>, J.E. van Hooft<sup>2,4</sup>, W.A. Bemelman<sup>1,4</sup>, <sup>1</sup>Dept of Surgery, <sup>2</sup>Dept of Gastroenterology and Hepatology, and <sup>3</sup>Clinical Research Unit, Academic Medical Center, Amsterdam, <sup>4</sup>Stent-In study group, collaborative Dutch Stent-In study group, Amsterdam, The Netherlands*
- 14.50 Metachronous colorectal cancers: the clinician at fault? (p. 74)  
*C.M.C. le Clercq<sup>1</sup>, C.M. Bakker<sup>2</sup>, A. van Nunen<sup>2</sup>, E.T.P. Keulen<sup>3</sup>, G.L. Beets<sup>4</sup>, B. Winkens<sup>5</sup>, A.A.M. Mascllee<sup>1</sup>, S. Voorzitter: F. Daams en J. Heisterkamp

Voordrachten in het Nederlands, spreektijd 7 minuten, discussietijd 3 minuten

- 09.30 In vivo spectroscopy on tissues encountered during colorectal surgery (p. 86)

*R.M. Schols<sup>1,2</sup>, L. Alic<sup>2</sup>, G.L. Beets<sup>1</sup>, S.O. Breukink<sup>1</sup>, F.P. Wieringa<sup>2</sup>, L.P.S. Stassen<sup>1</sup>, <sup>1</sup>Dept of Surgery, Maastricht University Medical Center & NUTRIM School for Nutrition, Toxicology and Metabolism, Maastricht University, Maastricht, <sup>2</sup>van 't Hoff Program on Medical Photonics, Netherlands Organization for Applied Scientific Research TNO, Eindhoven, The Netherlands*

- 09.40 The use of endoractor during laparoscopic colorectal surgery; a new solution? pilot study (p. 87)

*J.S. Pawiroedjo<sup>1</sup>, N. Rijkers<sup>1</sup>, A.B. Smits<sup>1</sup>, <sup>1</sup>Sint Antonius Ziekenhuis, Nieuwegein, The Netherlands*

- 09.50 Analysis of open-close HIPEC-procedure patients in peritoneal metastasis of colorectal origin (p. 88)

*T.R. van Oudheusden<sup>1</sup>, H.J. Braam<sup>2</sup>, S.W. Nienhuijs<sup>1</sup>, M.J. Wiezer<sup>2</sup>, B. van Ramshorst<sup>2</sup>, M.D.P Luyer<sup>1</sup>, I.H.J.T. de Hingh<sup>1</sup>, <sup>1</sup>Dept of Surgery, Catharina Hospital, Eindhoven, <sup>2</sup>Dept of Surgery, St. Antonius Hospital, Nieuwegein, The Netherlands*

- 10.00 Transanal versus traditional laparoscopic total mesorectal excision for rectal carcinomaA matched case control study (p. 89)

*S. Velthuis<sup>1</sup>, D.H. Nieuwenhuis<sup>1</sup>, T.E.G. Ruijter<sup>2</sup>, M.A. Cuesta<sup>1</sup>, H.J. Bonjer<sup>1</sup>, C. Sietses<sup>1</sup>, <sup>1</sup>Dept of Surgery, Gelderse Vallei Hospital, Ede, <sup>2</sup>Dept of Surgery, VU Medical Center, Amsterdam, <sup>3</sup>Dept of Pathology, Rijnstate Hospital, Arnhem, The Netherlands*

- 10.10 Management of major perineal wound complications after abdominoperineal resection for malignant disease. A retrospective cohort study (p. 90)

*M.S. Walma<sup>1</sup>, J.P.M. Burbach<sup>1</sup>, P.M. Verheijen<sup>2</sup>, R. van Hillegersberg<sup>1</sup>, A. Pronk<sup>3</sup>, W.M.U. van Grevenstein<sup>1</sup>, <sup>1</sup>University Medical Center Utrecht, Utrecht, <sup>2</sup>Meander Medical Center, Amersfoort, <sup>3</sup>Diakonessenhuis, Utrecht, The Netherlands*

- 10.20 The detrimental effect of diclofenac on intestinal anastomotic healing depends on the location in the gut (p. 91)

*S.T.K. Yauw<sup>1</sup>, R.M.L.M. Lomme<sup>1</sup>, R.J. van der Vijver<sup>1</sup>, T. Hendriks<sup>1</sup>, H. van Goor<sup>1</sup>, <sup>1</sup>Dept of Surgery, Radboud University Medical Center, Nijmegen, The Netherlands*

- 10.30 Defunctioning ileostomy does not prevent anastomotic leaks after restorative proctocolectomy; a multicenter evaluation of clinical and surgical risk factors (p. 92)

*S. Sahami<sup>1</sup>, C.J. Buskens<sup>1</sup>, R. Lindeboom<sup>2</sup>, T. Young Fadok<sup>3</sup>, A. de Buck van Overstraeten<sup>4</sup>, A. D'Hoore<sup>4</sup>, W.A. Bemelman<sup>1</sup>, <sup>1</sup>Dept of Surgery, Academic Medical Center, Amsterdam, <sup>2</sup>Divisions of Clinical Methods and Public Health, Academic Medical Center, Amsterdam, The Netherlands, <sup>3</sup>Dept of Surgery, Mayo Clinic College of Medicine, Arizona, USA, <sup>4</sup>Dept of Surgery, University Hospitals Leuven,*

- 10.40 The course of pulmonary vagus nerve branches (p. 93)  
*T.J. Weijts<sup>1</sup>, J.P. Ruurda<sup>2</sup>, M.D.P. Luyer<sup>3</sup>, G.A.P. Nieuwenhuijzen<sup>3</sup>, R. van Hillegersberg<sup>2</sup>, R.L.A.W. Bleys<sup>1</sup>, <sup>1</sup>Dept of Anatomy, and <sup>2</sup>Dept of Surgical Oncology, University Medical Center Utrecht, Utrecht, <sup>3</sup>Dept of Surgery, Catharina Hospital Eindhoven, Eindhoven, The Netherlands*
- 10.50 Near-infrared fluorescence sentinel lymph node detection in gastric cancer using indocyanine green coupled to a nanocolloid (p. 94)  
*Q.R.J.G. Tummers<sup>1</sup>, L.S.F. Boogerd<sup>1</sup>, F.P.R. Verbeek<sup>1</sup>, M.C. Boonstra<sup>1</sup>, H.J.M. Handgraaf<sup>1</sup>, H.H. Hartgrink<sup>1</sup>, W.O. de Steur<sup>1</sup>, J.V. Frangioni<sup>2,3</sup>, C.J.H. van de Velde<sup>1</sup>, A.L. Vahrmeijer<sup>1</sup>, <sup>1</sup>Dept of Surgery, Leiden University Medical Center, Leiden, The Netherlands, <sup>2</sup>Dept of Medicine, and <sup>3</sup>Dept of Radiology, Beth Israel Deaconess Medical Center, Boston, USA*
- 11.00 Worldwide trends in surgical techniques in the treatment of esophageal cancer (p. 95)  
*L. Haverkamp<sup>1</sup>, J.P. Ruurda<sup>1</sup>, J. Boone<sup>2</sup>, R. van Hillegersberg<sup>1</sup>, <sup>1</sup>University Medical Center Utrecht, Utrecht, The Netherlands*
- 11.10 Thoracolaparoscopic dissection of lymph nodes involved in the drainage of the esophagus is feasible and safe in human cadavers and swine (p. 96)  
*H.T. Künzli<sup>1,4</sup>, M.I. van Berge Henegouwen<sup>5</sup>, S.S. Gisbertz<sup>5</sup>, M.J. Wiezer<sup>2</sup>, C.A. Seldénrik<sup>3</sup>, J.J.G.H.M. Bergman<sup>4</sup>, B.L.A.M. Weusten<sup>1,4</sup>, <sup>1</sup>Dept of Gastroenterology, <sup>2</sup>Dept of Surgery, and <sup>3</sup>Dept of Pathology, St. Antonius Hospital, Nieuwegein, <sup>4</sup>Dept of Gastroenterology, and <sup>5</sup>Dept of Surgery, Academic Medical Center, Amsterdam, The Netherlands*
- 11.20 Effect of perioperatively administered glucocorticoids on pulmonary complications after transthoracic oesophagectomy. A meta-analysis (p. 97)  
*T.J. Weijts<sup>1</sup>, J.M. Dieleman<sup>2</sup>, J.P. Ruurda<sup>1</sup>, A.C. Kroese<sup>2</sup>, H.J.T.A. Knape<sup>2</sup>, R. van Hillegersberg<sup>1</sup>, <sup>1</sup>Dept of Surgical Oncology, Surgery, <sup>2</sup>Dept of Anaesthesiology, Intensive Care and Emergency Medicine, University Medical Center Utrecht, Utrecht, The Netherlands*
- 11.30 Ledenvergadering Nederlandse Vereniging voor Gastroenterologie in de Brabantzaal
- 12.00 Lunchbuffet in de expositiehal

Donderdag 20 maart 2014

Donderdag 20 maart 2014

- 15.50 DSCA: validatie van de data  
*Dr. M. Wouters, chirurg, Antoni van Leeuwenhoekhuis en secretaris kwaliteit bestuur NVVH*
- 16.10 Is de case mix correctie adequaat voor complexe combinaties van patiënten en procedures?  
*Dr. P. Tanis, chirurg, Academisch Medisch Centrum, Amsterdam*
- 16.30 Winst van deviatie na rectumchirurgie: winst voor de patiënt of voor de 'score'?  
*Dr. J.W. Dekker, chirurg, Reinier de Graaf Gasthuis, Delft*
- 16.50 Gebruik bij prothetisch materiaal bij functionele rectumchirurgie: zit ook hier de toekomst in auditing?  
*Dr. N.A.T. Wijffels, chirurg, Zuwe Hofpoort, Woerden*
- 17.10 Innovations in colorectal surgery round 2 (room 82 + 83)
- 17.30 Voor de President Select kunt u zich begeven naar de Brabantzaal
- 18.30 Einde programma, congresborrel in expositiehal.

**Voorzitters:** J.P.H. Drenth en C.C. Paulusma

Voordrachten in het Engels, spreektijd 8 minuten, discussietijd 4 minuten

- 10.30 Introduction to the abstracts  
*Prof. dr. J.P.H. Drenth, MDL-arts, Radboudumc Nijmegen*
- 11.00 Fucosyltransferase-2 non-secretor status is associated with non-anastomotic biliary strictures after liver transplantation in recipients with primary sclerosing cholangitis (p. 98)  
*C.J. Verhoeven<sup>1</sup>, L. Maroni<sup>2</sup>, P. Gadjradij<sup>1</sup>, D. Tolenaars<sup>2</sup>, E. de Mare-Bredemeijer<sup>3</sup>, S. Mancham<sup>3</sup>, S. van de Graaf<sup>2</sup>, R. Oude Elferink<sup>2</sup>, U. Beuers<sup>2</sup>, H.J. Metselaar<sup>3</sup>, J. Kwekkeboom<sup>3</sup>, L.J.W. van der Laan<sup>1</sup>, <sup>1</sup>Dept of Surgery, and <sup>3</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, Rotterdam, <sup>2</sup>Dept of Gastroenterology and Hepatology, Tytgat Institute, Academic Medical Center, Amsterdam, The Netherlands*
- 11.12 Local administration of bone marrow-derived mesenchymal stromal cells after partial hepatectomy ameliorates liver fibrogenesis in a dose dependent manner (p. 99)  
*D. van der Helm<sup>1</sup>, E.S.M. de Jonge-Muller<sup>1</sup>, B. van Hoek<sup>1</sup>, I. Molendijk<sup>1</sup>, A.C. den Dulk<sup>1</sup>, J.J. van der Reijden<sup>1</sup>, I. Biemond<sup>1</sup>, M.J. Coenraad<sup>1</sup>, H.W. Verspaget<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, The Netherlands*
- 11.24 Dopamine protects against cooling and rewarming-induced liver damage in vitro and in vivo (p. 100)  
*E.M. Verhaag<sup>1,2</sup>, H. Room<sup>1</sup>, N. Verhoeff<sup>1</sup>, G.J. Dugbartey<sup>2</sup>, H. Moshage<sup>1</sup>, R.H. Henning<sup>2</sup>, K.N. Faber<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, <sup>2</sup>Dept of Clinical Pharmacology, University Medical Center Groningen, University of Groningen, Groningen, The Netherlands*
- 11.36 Decellularization of human and porcine livers: Applications for graft engineering (p. 101)  
*M.M.A. Verstegen<sup>1</sup>, S. van den Hoek<sup>1</sup>, J. Kwekkeboom<sup>2</sup>, H.J. Metselaar<sup>2</sup>, J. IJzermans<sup>1</sup>, L.J.W. van der Laan<sup>1</sup>, J. de Jonge<sup>1</sup>, <sup>1</sup>Dept of Surgery, and <sup>2</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, Rotterdam, The Netherlands*
- 11.48 Smad4-dependent regulation of hepatocellular carcinoma growth and progression (p. 102)  
*P.Y. Hernanda<sup>1</sup>, C. Kan<sup>1</sup>, A.M. Das<sup>2</sup>, K. Sideras<sup>1</sup>, S.J.A Bots<sup>1</sup>, H.L.A. Janssen<sup>1,3</sup>, L.L. Kodach<sup>4</sup>, H.J. Metselaar<sup>1</sup>, J.Kwekkeboom<sup>1</sup>, D. Sprengers<sup>1</sup>, M.J. Bruno<sup>1</sup>, T.L.M. ten Hagen<sup>2</sup>, M.P. Peppelenbosch<sup>1</sup>, Q.Pan<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, and <sup>2</sup>Laboratory of Experimental Surgical Oncology, Section Surgical Oncology, Dept of Surgery, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>3</sup>Division of Gastroenterology, University Health Network, Toronto, Canada, <sup>4</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, The Netherlands*
- 12.00 Lunchbuffet in de expositiehal

**Voorzitters:** G.A. Meijer en S.W.C. van Mil

Voordrachten in het Engels, spreektijd 8 minuten, discussietijd 4 minuten

- 13.00 Translational Science Teaching session : Colorectal Carcinoma (CRC)  
*Prof. dr. G.A. Meijer, VU medisch centrum, Amsterdam*
- 13.30 Sensitization of colon cancer stem cells to chemotherapy by ER stress induced differentiation (p. 103)  
*M.C.B. Wielenga<sup>1</sup>, S. Colak<sup>2\*</sup>, J. Heijmans<sup>1</sup>, J.F. van Lidth de Jeude<sup>1</sup>, S.L. Rosekrans<sup>1</sup>, B. Baan<sup>1</sup>, J.P. Medema<sup>2</sup>, G.R. van den Brink<sup>1</sup>, \*Both authors contributed equally, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, and <sup>2</sup>Laboratory of Experimental Oncology and Radiobiology, Academic Medical Center, Amsterdam, The Netherlands*
- 13.42 Inhibited expression of corticotropin-releasing hormone receptor 2 (CRHR2) correlates with tumor growth, EMT, distant metastasis risk and poor survival in experimental and clinical colorectal cancer (p. 104)  
*J. Rodriguez<sup>1</sup>, H.W. Verspaget<sup>2</sup>, D. Iliopoulos<sup>1</sup>, S.H. Ypez<sup>3</sup>, J.M. Hoffman<sup>1</sup>, G.J. Baay-Gusman<sup>3</sup>, A.B. Tirado-Rodriguez<sup>3</sup>, I.K.M. Law<sup>1</sup>, D.W. Hommes<sup>1,2</sup>, L. Chang<sup>1</sup>, Ch. Pothoulakis<sup>1</sup>, S. Baritaki<sup>1</sup>, <sup>1</sup>Division of Digestive Diseases and Institute for Molecular Medicine, David Geffen School of Medicine at UCLA, Los Angeles, USA, <sup>2</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, The Netherlands, <sup>3</sup>Unidad de Investigacion en Enfermedades Oncologicas, Hospital Infantil de Mexico Federico Gomez, Mexico City, Mexico*
- 13.54 Dual targeting of the VEGF and endoglin/TGF-β pathway in colorectal cancer (p. 105)  
*M. Pauwels<sup>1</sup>, R.C. Heijkants<sup>1</sup>, G.W. van Pelt<sup>2</sup>, W.E. Mesker<sup>2</sup>, C.F.M. Sier<sup>2</sup>, C.P. Theuer<sup>3</sup>, L.J.A.C. Hawinkels<sup>1</sup>, <sup>1</sup>Dept of Molecular Cell Biology, and <sup>2</sup>Dept of Surgery, Leiden University Medical Center, Leiden, The Netherlands, <sup>3</sup>Tracon Pharmaceuticals, San Diego, USA*
- 14.06 Conditional activation of BMP signalling leads to loss of the stem cell compartment (p. 106)  
*P. Voornneveld<sup>1</sup>, L. Kodach<sup>1</sup>, R. Jacobs<sup>1</sup>, S. Rozekrans<sup>2,3</sup>, G. van den Brink<sup>2,3</sup>, J. Hardwick<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, <sup>2</sup>Dept of Gastroenterology and Hepatology, and <sup>3</sup>Tytgat Institute for Liver and Intestinal Research, Academic Medical Center, Amsterdam, The Netherlands*
- 14.18 Protein tyrosine phosphatase 1B (PTP1B) expression and phosphatase activity are increased in colorectal cancer which leads to a more invasive phenotype (p. 107)  
*E. Hoekstra<sup>1</sup>, M.J. Bruno<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, G.M. Fuhler<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands*

Donderdag 20 maart 2014

- 14.30 ER stress depletes Apc mutant intestinal epithelial stem cells downstream of nuclear  $\beta$ -catenin (p. 108)  
*J.F. van Lidth de Jeude<sup>1</sup>, M.C.B. Wielenga<sup>1</sup>, S.L. Rosekrans<sup>1</sup>, V. Muncan<sup>1</sup>, G.R. van den Brink<sup>1</sup>, J. Heijmans<sup>1</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, The Netherlands*
- 14.42 Fibroblasts promote invasion in SMAD4 negative colorectal cancers by producing BMP-2 (p. 109)  
*P.W. Voorneveld<sup>1</sup>, T. de Vos<sup>1</sup>, S. de Wit<sup>1</sup>, R.J. Jacobs<sup>1</sup>, L. Hawinkels<sup>2</sup>, M. Paauwe<sup>2</sup>, G. van Pelt<sup>3</sup>, W. Mesker<sup>3</sup>, G.R. van den Brink<sup>4,5</sup>, L. Kodach<sup>1</sup>, J. Hardwick<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, <sup>2</sup>Dept of Molecular Cell Biology, Cancer Genomics Center Netherlands and Center for Biomedical Genetics, and <sup>3</sup>Dept of Surgery, Leiden University Medical Center, Leiden, <sup>4</sup>Tytgat Institute for Liver and Intestinal Research, and <sup>5</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, The Netherlands*
- 15.00 Ledenvergadering Nederlandse Vereniging voor Hepatologie

**Voorzitters:** P.A. Boonstra en R.J. de Knegt

Voordrachten in het Engels, spreekijd 8 minuten, discussietijd 4 minuten

- 15.30 Translational science Teaching Session: Viral Hepatitis  
Clinical aspects: *Dr. R.J. De Knegt, Erasmus MC, Rotterdam*
- 15.57 Basic/Translational science aspects: *Dr. P.A. Boonstra, Erasmus MC, Rotterdam*
- 16.24 Baseline liver gene expression profile associated with combined response in chronic hepatitis B patients treated with peginterferon and adefovir (p. 110)  
*F. Stelma<sup>1,2</sup>, L. Jansen<sup>1,2</sup>, A. de Niet<sup>1,2</sup>, Z. Makowska<sup>3</sup>, M. T. Dill<sup>3</sup>, K. A. van Dort<sup>2</sup>, R. B. Takkenberg<sup>1</sup>, M.H. Heim<sup>3</sup>, N. A. Kootstra<sup>2</sup>, H.W. Reesink<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, and <sup>2</sup>Dept of Experimental Immunology, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands, <sup>3</sup>Dept of Biomedicine, University of Basel, Basel, Switzerland*
- 16.36 Dichotomal effect of immunosuppressants on hepatitis e virus infection: calcineurin inhibitors stimulate but mycophenolic acid inhibits viral replication (p. 111)  
*Y. Wang<sup>1</sup>, X. Zhou<sup>1</sup>, Y. Debeng<sup>2</sup>, L.J.W. van der Laan<sup>3</sup>, J. Neyts<sup>2</sup>, H.L.A. Janssen<sup>1,4</sup>, H.J. Metselaar<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, Q. Pan<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>2</sup>Rega Institute for Medical Research, Dept of Microbiology and Immunology, KU Leuven, Leuven, Belgium, <sup>3</sup>Dept of Surgery, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>4</sup>Division of Gastroenterology, University Health Network, Toronto, Canada*

*Donderdag 20 maart 2014*

- 16.48 Active genuine HBV replication in human liver chimeric uPA<sup>+/+</sup> NOG mice (p. 112)  
*M.D.B. van de Garde<sup>1</sup>, P. Biesta<sup>1</sup>, K. de Groot-Kreeft<sup>1</sup>, H.L.A. Janssen<sup>1,2</sup>, A. Boonstra<sup>1</sup>, T. Vanwolleghem<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center, Rotterdam, The Netherlands, <sup>2</sup>Liver Clinic, Toronto Western and General Hospital University Health Network Toronto, Toronto, Canada*
- 17.00 Voor de uitreiking van de Frieda den Hartog Jager prijs met aansluitende lezing door Prof. dr. J.H. Kleibeuker kunt u zich begeven naar de Brabantzaal

Donderdag 20 maart 2014

---

## Multidisciplinair Symposium

## Parkzaal

---

**Voorzitters:** J.C. Escher en S.W.M. Olde Damink

### Symposium Darmfalen

Van de secties: Kinder-MDL, NESPEN en NVGIC van de NVGE

- 9.30 Inleiding: Stichting Darmfalen Nederland en DRIFT  
*Prof. dr. G. Dijkstra, MDL-arts, UMC Groningen*
- 9.35 Eerste resultaten van Dutch Registry for Intestinal Failure  
*Prof. dr. E.H.H.M. Rings, kinderarts, Erasmus MC Rotterdam & Leids UMC*

### Behandeling van darmfalen

- 9.50 Behandeling short bowel syndroom bij volwassenen  
*Dr. G. Wanten, MDL-arts, Radboudumc, Nijmegen*
- 10.05 Darmrevalidatie bij kinderen  
*Dr. J.M. Hulst, kinderarts, Erasmus MC, Rotterdam*
- 10.15 Parenterale voeding bij volwassenen  
*Dr. M.J. Serlie, internist-endocrinoloog, AMC, Amsterdam*

### Chirurgie bij darmfalen

- 10.25 Kinderchirurgie bij darmfalen  
*Prof. dr. R.M.H. Wijnen, kinderchirurg, Erasmus MC, Rotterdam*
- 10.40 Reconstructie chirurgie bij darmfalen van volwassenen  
*Prof. dr. M.A. Boermeester, chirurg, Academisch Medisch Centrum Amsterdam*
- 10.55 Dunnedarmtransplantatie bij kinderen en volwassenen  
*Dr. J.W. Haveman, chirurg, UMC Groningen*
- 11.10 Plaatsbepaling en outcome van dunnedarmtransplantatie in Nederland  
*Prof. dr. G. Dijkstra, MDL-arts, UMC Groningen*

Donderdag 20 maart 2014

- 11.25 Einde symposium
- 11.30 Voor de ledenvergadering van de NVGE kunt u zich begeven naar de Brabantzaal
- 12.00 Lunchbuffet in de expositiehal

---

**Vrije voordrachten Sectie Inflammatoire Darmziekten** **Parkzaal**

---

**Voorzitters:** G.R.A.M. D'Haens en W.R. ten Hove

Voordrachten in het Nederlands, spreektijd 7 minuten, discussietijd 3 minuten

- 13.00 Gene expression profiles in peripheral blood as early biomarkers for response to induction therapy in Crohn's disease (p. 113)  
*C.P. Peters<sup>1,2</sup>, F.H. van Dooren<sup>1</sup>, N.W. Duijvis<sup>1</sup>, P.C.F. Stokkers<sup>3</sup>, P.D. Moerland<sup>4</sup>, C.Y. Ponsioen<sup>2</sup>, A.A. te Velde<sup>1</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, and <sup>2</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, University of Amsterdam, Amsterdam, <sup>3</sup>Dept of Gastroenterology and Hepatology, St Lucas Andreas Hospital, Amsterdam, <sup>4</sup>Dept of Clinical Epidemiology, Biostatistics and Bioinformatics, Bioinformatics Laboratory, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands*
- 13.10 NCF4 risk allele affects steroid exposure and dependency in Crohn's disease patients, preliminary results (p. 114)  
*V.J.A.A. Nuij<sup>1</sup>, R. Somasundaram<sup>1</sup>, K. Diederer<sup>1</sup>, L. Vellekoop<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, C. J. van der Woude<sup>1</sup>, G.M. Fuhler<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center, Rotterdam, the Netherlands.*
- 13.20 Fibrosis does not increase with disease duration in ulcerative colitis (p. 115)  
*J.R. de Bruyn<sup>1,2</sup>, S.L. Meijer<sup>3</sup>, M.E. Wildenberg<sup>2</sup>, G.R. van den Brink<sup>1,2</sup>, G.R.A.M. D'Haens<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology, <sup>2</sup>Tytgat Institute for Liver and Intestinal Research, and <sup>3</sup>Dept of Pathology, Academic Medical Center, Amsterdam, The Netherlands*
- 13.30 Identification of HLA-A and WWOX as genetic variants associated with recurrent fibrostenotic Crohn's disease (p. 116)  
*M.C. Visschedijk<sup>1,2</sup>, L.M. Spekhorst<sup>1</sup>, E.S. van Loo<sup>3</sup>, D. de Jong<sup>4</sup>, A.E. van der Meulen-de Jong<sup>5</sup>, H.W. Verspaget<sup>6</sup>, C.Y. Ponsioen<sup>6</sup>, V.B. Nieuwenhuijs<sup>7</sup>, R. Alberts<sup>2</sup>, S. van Sommeren<sup>1,2</sup>, G. Dijkstra<sup>1</sup>, R.K. Weersma<sup>1</sup>, E.A.M. Festen<sup>1,2</sup>, On behalf of the Initiative on Crohn and Colitis, <sup>1</sup>Dept of Gastroenterology and Hepatology, <sup>2</sup>Dept of Genetics, and <sup>3</sup>Dept of Surgery, University of Groningen, University Medical Center Groningen, Groningen, <sup>4</sup>Dept of Gastroenterology and Hepatology, Radboud University, Nijmegen Medical Center, Nijmegen, <sup>5</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, <sup>6</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, <sup>7</sup>Dept of Surgery, Isala Clinics, Zwolle, The Netherlands*

Donderdag 20 maart 2014

- 13.40 Leukocyte Scintigraphy as a Tool to Measure Inflammatory Load in Ulcerative Colitis (p. 117)  
*J.F. Brandse<sup>1</sup>, R.J. Bennink<sup>2</sup>, S. van Eeden<sup>3</sup>, P.A. Baars<sup>4</sup>, M. Löwenberg<sup>1</sup>, C.Y. Ponsioen<sup>1</sup>, G.R. van den Brink<sup>1</sup>, G.R. D'Haens<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, <sup>2</sup>Dept of Nuclear Medicine, <sup>3</sup>Dept of Pathology, and <sup>4</sup>Dept of Experimental Immunology, Academic Medical Center, Amsterdam, The Netherlands*
- 13.50 Comparative efficacies of novel JAK inhibitors to reduce macrophage activation (p. 118)  
*L.C.S. de Vries<sup>1,2</sup>, J.M. Duarte<sup>1</sup>, F.W.M. Hilbers<sup>1</sup>, V.J. Ludbrook<sup>3</sup>, M.D. Woodrow<sup>3</sup>, M.J. Sims<sup>3</sup>, M. de Winther<sup>4</sup>, P.D. Moerland<sup>5</sup>, G.R.A.M. D'Haens<sup>2</sup>, W.J. de Jonge<sup>1,2</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, and <sup>2</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, The Netherlands, <sup>3</sup>Kinase DPU, GlaxoSmithKline, Stevenage, United Kingdom, <sup>4</sup>Dept of Medical Biochemistry, and <sup>5</sup>Department of Clinical Epidemiology, Biostatistics and Bioinformatics, Academic Medical Center, Amsterdam, The Netherlands*
- 14.00 Intestinal Epstein- Barr virus is associated with mucosal lymphoproliferation and subsequent intestinal surgery in inflammatory bowel disease patients (p. 119)  
*L.H.C. Nissen<sup>1</sup>, D.J. de Jong<sup>1</sup>, I.D. Nagtegaal<sup>2</sup>, W. Kievit<sup>1</sup>, L.A.A.P. Derikx<sup>1</sup>, M.G. Lynch<sup>2</sup>, F. Hoentjen<sup>1</sup>, J.H.J.M. van Krieken<sup>2</sup>, <sup>1</sup>Inflammatory Bowel Disease Center, Dept of Gastroenterology and Hepatology, and <sup>2</sup>Dept of Pathology, Radboud University, Nijmegen Medical Center, Nijmegen, The Netherlands*
- 14.10 Predicting mucosal inflammatory activity in Crohn's disease: a new, validated nonendoscopic disease activity index (p. 120)  
*I.M. Minderhoud<sup>1</sup>, E.W. Steyerberg<sup>2</sup>, A.A. van Bodegraven<sup>3</sup>, C.J. van der Woude<sup>4</sup>, D.W. Hommes<sup>5</sup>, G. Dijkstra<sup>6</sup>, H.H. Fidder<sup>7</sup>, M.P. Schwartz<sup>8</sup>, B.Oldenburg<sup>7</sup>, <sup>1</sup>Dept of Internal Medicine and Gastroenterology, Tergooi Hospital, Hilversum, <sup>2</sup>Center for Medical Decision Making, Dept of Public Health, Erasmus MC, Rotterdam, <sup>3</sup>Dept of Gastroenterology, VU Medical Center, Amsterdam, <sup>4</sup>Dept of Gastroenterology, Erasmus MC, Rotterdam, The Netherlands, <sup>5</sup>Center for Inflammatory Bowel Diseases, UCLA Health System, Los Angeles, CA, USA, <sup>6</sup>Dept of Gastroenterology, University Medical Center Groningen, University of Groningen, Groningen, <sup>7</sup>Dept of Gastroenterology, University Medical Center Utrecht, Utrecht, <sup>8</sup>Dept of Gastroenterology, Meander Medical Center, Amersfoort, The Netherlands*
- 14.20 Only one third of Crohn's disease patients have sustained remission of perianal fistulas (p. 121)  
*I. Molendijk<sup>1</sup>, V.J.A.A. Nuijt<sup>2</sup>, A.E. van der Meulen-de Jong<sup>1</sup>, C.J. van der Woude<sup>2</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, <sup>2</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center, Rotterdam, The Netherlands*
- 14.30 Self-reported disability index in inflammatory bowel disease: results from a large Dutch prospective cohort (p. 122)  
*M. van der Have<sup>1</sup>, H.H. Fidder<sup>1</sup>, M. Leenders<sup>1</sup>, A.A. Kaptein<sup>2</sup>, M.E. van der Valk<sup>1</sup>, A.A. van Bodegraven<sup>3,12</sup>, G. Dijkstra<sup>4,5</sup>, D.J. de Jong<sup>6</sup>, M. Pierik<sup>7</sup>, C.Y. Ponsioen<sup>8</sup>, A.E. van der Meulen-de Jong<sup>9</sup>, C.J. van der Woude<sup>10</sup>, P.C. van de Meeberg<sup>11</sup>, M.J.L. Romberg-Camps<sup>12</sup>, C.H.M. Clemens<sup>13</sup>, J.M. Jansen<sup>14</sup>, N. Mahmod<sup>15</sup>, C.J.M. Bolwerk<sup>16</sup>, J.R. Vermeijden<sup>17</sup>, P.D. Siersema<sup>1</sup>, B. Oldenburg<sup>1</sup>, On behalf of the COIN study group and the Dutch Initiative on Crohn and Colitis, <sup>1</sup>Dept of Gastroenterology and Hepatology, University Medical Center Utrecht, Utrecht, <sup>2</sup>Section Medical Psychology, Leiden, University Medical Center, <sup>3</sup>Dept of Gastroenterology and Hepatology, VU University Medical Center, Amsterdam, <sup>4</sup>Dept of Gastroenterology and Hepatology, University Medical Center Groningen, Groningen, <sup>5</sup>University of Groningen, Groningen, <sup>6</sup>Dept of Gastroenterology and Hepatology, Radboud*

*University, Nijmegen Medical Center, Nijmegen, <sup>7</sup>Dept of Gastroenterology and Hepatology, Maastricht University Medical Center, Maastricht, <sup>8</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, <sup>9</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, <sup>10</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center, Rotterdam, <sup>11</sup>Dept of Gastroenterology and Hepatology, Slingeland Hospital, Doetinchem, <sup>12</sup>Dept of Gastroenterology and Hepatology, Orbis Medical Center, Sittard, <sup>13</sup>Dept of Gastroenterology and Hepatology, Diaconessenhuis, Leiden, <sup>14</sup>Dept of Gastroenterology and Hepatology, Onze Lieve Vrouwe Gasthuis, Amsterdam, <sup>15</sup>Dept of Gastroenterology and Hepatology, St. Antonius Hospital, Nieuwegein, <sup>16</sup>Dept of Gastroenterology and Hepatology, Reinier de Graaf Groep, Delft, <sup>17</sup>Dept of Gastroenterology and Hepatology, Meander Medical Center, Amersfoort, The Netherlands*

**14.40 The relevance of population based IBD biobanks: a meta-analysis and introduction of the IBD-SL biobank cohort (p. 123)**

*T.R.A. van den Heuvel<sup>1,2</sup>, D.M.A.E. Jonkers<sup>1,2</sup>, S.F.G. Jeuring<sup>1,2</sup>, W.H. Hameeteman<sup>1</sup>, L.E. Oostenbrug<sup>3</sup>, M.J.L. Romberg-Camps<sup>4</sup>, A.A.M. Masclee<sup>1,2</sup>, M.P. Zeegers<sup>5,6</sup>, M.J. Pierik<sup>1,2</sup>, <sup>1</sup>Dept of Internal Medicine, Division of Gastroenterology and Hepatology, Maastricht University Medical Center, Maastricht, <sup>2</sup>Maastricht University Medical Center, NUTRIM School for Nutrition, Toxicology and Metabolism, Maastricht, <sup>3</sup>Dept of Internal Medicine, Atrium Medical Center, Heerlen, <sup>4</sup>Dept of Internal Medicine, Orbis Medical Center, Sittard-Geleen, The Netherlands, <sup>5</sup>Dept of Public Health, Epidemiology and Biostatistics, University Hospital Birmingham, Birmingham, United Kingdom, <sup>6</sup>Dept of Complex Genetics, Cluster of Genetics and Cell Biology, Maastricht University Medical Center, Maastricht, The Netherlands*

**14.50 Is elderly-onset ulcerative colitis a different entity? Natural disease course and treatment response compared to adult-onset disease in a Dutch population-based cohort (p. 124)**

*S.F.G. Jeuring<sup>1,2</sup>, T.R.A. van den Heuvel<sup>1,2</sup>, M.P. Zeegers<sup>3,4</sup>, W.H. Hameeteman<sup>1</sup>, M.J.L. Romberg-Camps<sup>5</sup>, L.E. Oostenbrug<sup>6</sup>, A.A.M. Masclee<sup>1,2</sup>, D.M.A.E. Jonkers<sup>1,2</sup>, M.J. Pierik<sup>1,2</sup>, <sup>1</sup>Dept of Internal Medicine, Division of Gastroenterology and Hepatology, <sup>2</sup>NUTRIM, School for Nutrition, Toxicology and Metabolism, and <sup>3</sup>Dept of Complex Genetics, Cluster of Genetics and Cell Biology, Maastricht University Medical Center, Maastricht, The Netherlands, <sup>4</sup>Dept of Epidemiology and Public Health, University of Birmingham, Birmingham, United Kingdom, <sup>5</sup>Dept of Internal Medicine and Gastroenterology, Orbis Medical Center, Sittard, <sup>6</sup>Dept of Internal Medicine and Gastroenterology, Atrium Medical Center, Heerlen, The Netherlands*

**15.00 Theepauze expositiehal**

**Voorzitters:** J.P.H. Drenth en S.W.M. Olde Damink

- |       |   |
|-------|---|
| 15.30 | Is voeding bij functionele aandoeningen zinvol?<br><i>Dr. L.A. van der Waaij, MDL-arts, Martini Ziekenhuis Groningen</i>                                  |
| 15.50 | Voeding bij IBD: wat kunnen we van de kinderartsen leren?<br><i>Dr. A. Kindermann, kinderarts, Emma Kinderziekenhuis, Amsterdam</i>                       |
| 16.10 | Voedselintoleranties en allergieën: wat is dat eigenlijk?<br><i>Dr. T. Rustemeyer, dermatoloog, VU medisch centrum, Amsterdam</i>                         |

- 10.45 Inleiding virale hepatitis  
*Prof. dr. J.P.H. Drenth, MDL-arts, Radboudumc, Nijmegen*
- 10.50 De virale hepatitis zorg in Nederland - gisteren, vandaag, morgen  
*Prof. dr. S.W. Schalm, MDL-arts, Erasmus MC Rotterdam*
- 11.00 Einde programma

---

**Poster rounds DEGH meeting**

**Zaal 19**

---

<b>Theme</b>	<b>Immunology and IBD – Chairs: G. Bouma and D.M.A.E. Jonkers</b>
09.00	De postersessie van de DEGH vindt plaats tussen 09.00 en 11.00 uur. Vanaf 09.00 uur zullen alle posters worden gepresenteerd in een plenaire sessie met behulp van een powerpoint slide. Na het presenteren van de posters zal er gelegenheid zijn tot het stellen van vragen bij de desbetreffende posters. In de zaal is een ontbijtbuffet aanwezig.
<b>1.</b>	<b>Sympathetic rather than vagal activity modulates acute DSS colitis in mice</b> <i>C. Cailotto<sup>1</sup>, B.J. Olivier<sup>1</sup>, L. Costes<sup>1</sup>, J. van der Vliet<sup>1</sup>, F. Hilbers<sup>1</sup>, W.J. de Jonge<sup>1</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, Academic Medical Center, Amsterdam, The Netherlands</i>
<b>2.</b>	<b>Prediction of response to adalimumab induction therapy in Crohn's disease patients</b> <i>C.P. Peters<sup>1,2</sup>, F.H. van Dooren<sup>1</sup>, N.W. Duijvis<sup>1</sup>, S.C. Wolfkamp<sup>1</sup>, E.W. Vogels<sup>1</sup>, C. Verseijden<sup>1</sup>, S. Meisner<sup>1</sup>, P.C. F. Stokkers<sup>3</sup>, P.D. Moerland<sup>4</sup>, C.Y. Ponsioen<sup>2</sup>, A.A. te Velde<sup>1</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, <sup>2</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, University of Amsterdam, Amsterdam, <sup>3</sup>Dept of Gastroenterology and Hepatology, St Lucas Andreas Hospital, Amsterdam, <sup>4</sup>Dept of Clinical Epidemiology, Biostatistics and Bioinformatics, Bioinformatics Laboratory, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands</i>
<b>3.</b>	<b>Potential mechanisms of therapeutic cannabis use in chronic pancreatitis</b> <i>W.K. Utomo<sup>1</sup>, K. Parikh<sup>2</sup>, M. de Vries<sup>3</sup>, H. van Goor<sup>3</sup>, M.J. Bruno<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, H. Braat<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, <sup>2</sup>Dept of Cell Biology, University Medical Center Groningen, University of Groningen, Groningen, <sup>3</sup>Dept of Surgery, Radboud University Medical Center, Nijmegen, The Netherlands</i>
<b>4.</b>	<b>Longitudinal analysis of TRAIL and CD158b expression on peripheral and intrahepatic NK cells in HCV patients during triple therapy</b> <i>M. Spaan<sup>1</sup>, R.A. de Groen<sup>1</sup>, G.W. van Oord<sup>1</sup>, H.L.A. Janssen<sup>1,2</sup>, R.J. de Knecht<sup>1</sup>, A. Boonstra<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>2</sup>Liver Clinic University Health Network, Division of Gastroenterology, University of Toronto, Canada</i>
<b>5.</b>	<b>Analysis of the transcriptome and immune function of monocytes during IFNa-based therapy in chronic HCV infection revealed induction of TLR7 responsiveness</b> <i>J. Hou<sup>1</sup>, Z.M. Groothuismink<sup>1</sup>, L. Koning<sup>1</sup>, R. Roomer<sup>1</sup>, W. van IJcken<sup>2</sup>, K. Kreeft<sup>1</sup>, B. Liu<sup>1</sup>, H.L.A. Janssen<sup>1,3</sup>, R.J. de Knecht<sup>1</sup>, A. Boonstra<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, and <sup>2</sup>Center for Biomics, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>3</sup>Liver Clinic University Health Network, Division of Gastroenterology, University of Toronto, Canada</i>

Vrijdag 21 maart 2014

**6. Rapamycin and everolimus facilitate hepatitis e virus replication: reveal an antiviral function of PI3K-AKT-mTOR pathway**

*X. Zhou<sup>1</sup>, Y. Wang<sup>1</sup>, H.L.A. Janssen<sup>1,2</sup>, H.J. Metselaar<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, Q. Pan<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>2</sup>Division of Gastroenterology, University Health Network, Toronto, Canada*

**7. T cell characteristics during acute hepatitis B virus infection**

*S.B. Willemse<sup>1,2</sup>, A. de Niet<sup>1,2</sup>, F. Stelma<sup>1,2</sup>, M.J. Tempelmans Plat-Sinnige<sup>2</sup>, E.B.M. Remmerswaal<sup>2</sup>, H.W. Reesink<sup>1</sup>, E.M.M. van Leeuwen<sup>2</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, and <sup>2</sup>Dept of Experimental Immunology, Academic Medical Center, Amsterdam, The Netherlands*

**8. The number of human commensal bacterium *Faecalibacterium prausnitzii* is significantly increased in the fecal samples of patients with active Crohn's disease**

*E. Caljouw<sup>1</sup>, M.R.K.L. Lie<sup>1</sup>, M. Elizabeth<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, C.J. van der Woude<sup>1</sup>, S.R. Konstantinov<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands*

**9. Bacterial translocation to the pancreas revealed after analyses of the pancreatic cyst fluids**

*V. Narayanan<sup>1</sup>, W.K. Utomo<sup>1</sup>, M.J. Bruno<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, H. Braat<sup>1</sup>, S.R. Konstantinov<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands*

**10. Expression and localization of IL-21 in the gastrointestinal mucosa of pediatric Crohn's Disease patients**

*L.M.M. Costes<sup>1</sup>, D.J. Lindenbergh-Kortleve<sup>1</sup>, M.A. van Leeuwen<sup>1</sup>, S. Veenbergen<sup>1</sup>, C.I. de Bie<sup>1</sup>, J.C. Escher<sup>1</sup>, L. de Ridder<sup>1</sup>, J.N. Samsom<sup>1</sup>, <sup>1</sup>Dept of Pediatric Gastroenterology, Erasmus MC, Sophia Children's Hospital, Rotterdam, The Netherlands*

**11. Overexpression of Cyp27a1 in hematopoietic cells reduces hepatic inflammation independently of 27-hydroxycholesterol levels in plasma and liver**

*T. Hendrikx, M.L.J. Jeurissen<sup>1</sup>, V. Bieghs<sup>1</sup>, S.M.A. Walenbergh<sup>1</sup>, P.J. van Gorp<sup>1</sup>, F. Verheyen<sup>1</sup>, T. Houben<sup>1</sup>, Y. Dias Guichot<sup>1</sup>, M.J.J. Gijbels<sup>1</sup>, G.H. Koek<sup>1</sup>, E. Leitersdorf<sup>2</sup>, M.H. Hofker<sup>3</sup>, D. Lütjohann<sup>4</sup>, R. Shiri-Sverdlov<sup>1</sup>, <sup>1</sup>Depts of Molecular Genetics, Molecular Cell Biology, Electron Microscopy, Pathology and Internal Medicine; Nutrition and Toxicology Research (NUTRIM) and Cardiovascular Research (CARIM) Institutes of Maastricht, University of Maastricht, Maastricht, The Netherlands, <sup>2</sup>Dept of Medicine, Hadassah-Hebrew University Medical Center, Jerusalem, Israel, <sup>3</sup>Dept of Pathology and Laboratory Medicine, University Medical Center Groningen, University of Groningen, Groningen, The Netherlands, <sup>4</sup>Institute of Clinical Chemistry and Clinical Pharmacology, University of Bonn, Bonn, Germany*

**12. Characterization and quantification of human dendritic cell subsets in healthy and diseased livers**

*E. van der Aa<sup>1</sup>, P.J. Biesta<sup>1</sup>, F. Ayhan<sup>1</sup>, H.L.A. Janssen<sup>1</sup>, A.M. Wolman<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands*

---

**Poster rounds DEGH meeting**

**Zaal 20**

<b>Theme</b>	<b>Metabolism and therapy – Chairs: A.A. te Velde and R.K. Weersma</b>
09.00	De postersessie van de DEGH vindt plaats tussen 09.00 en 11.00 uur. Vanaf 09.00 uur zullen alle posters worden gepresenteerd in een plenaire sessie met behulp van een powerpoint slide. Na het presenteren van de posters zal er gelegenheid zijn tot het stellen van vragen bij de desbetreffende posters. In de zaal is een ontbijtbuffet aanwezig.
<b>1.</b>	<b>LGR5+ liver organoids as a model to study polycystic liver disease</b> E.S. Wills <sup>1,2</sup> , R. te Morsche <sup>1</sup> , R. Roepman <sup>2,3</sup> , J.H. de Wilt <sup>4</sup> , M. Huch <sup>5</sup> , H. Clevers <sup>5</sup> , J.P.H. Drenth <sup>1</sup> , <sup>1</sup> Dept of Medicine, Division of Gastroenterology and Hepatology, <sup>2</sup> Dept of Human Genetics, <sup>3</sup> Nijmegen Center for Molecular Life Sciences, and <sup>4</sup> Dept of Surgery, Radboud University Medical Center, Nijmegen, <sup>5</sup> Hubrecht Institute for Developmental Biology and Stem Cell Research, University Medical Center Utrecht, Utrecht, The Netherlands
<b>2.</b>	<b>MicroRNAs to assess warm ischemic injury during machine perfusion of liver grafts from circulatory death donors</b> C.J. Verhoeven <sup>1</sup> , D. Monbaliu <sup>2</sup> , I. Habib <sup>1</sup> , J. de Jonge <sup>1</sup> , T. Wylin <sup>2</sup> , I. Jochmans <sup>2</sup> , V. Heedfeld <sup>2</sup> , Metselaar <sup>1</sup> , J. Kwekkeboom <sup>1</sup> , R.W.F. de Bruin <sup>1</sup> , G. Kazemier <sup>3</sup> , J. IJzermans <sup>1</sup> , J. Pirenne <sup>2</sup> , L.J.W. van der Laan <sup>1</sup> , <sup>1</sup> Dept of Surgery and Gastroenterology and Hepatology, Erasmus Medical Center, Rotterdam, The Netherlands, <sup>2</sup> Dept of Abdominal Transplant Surgery, University Hospitals/ KU Leuven, Belgium, <sup>3</sup> Dept of Surgery, VU Medical Center, Amsterdam, The Netherlands
<b>3.</b>	<b>Increased expression efficiency by codon optimization for viral gene therapy of Crigler-Najjar syndrome</b> R. van Dijk <sup>1</sup> , N. van Til <sup>2</sup> , C. Riviere <sup>3</sup> , S. Duijst <sup>1</sup> , D.R. de Waart <sup>1</sup> , U. Beuers <sup>1,4</sup> , P.J. Bosma <sup>1</sup> , <sup>1</sup> Tytgat Institute for Liver and Intestinal Research, Academic Medical Center, University of Amsterdam, Amsterdam, <sup>2</sup> Dept of Hematology, Erasmus University Medical Center, Rotterdam, The Netherlands, <sup>3</sup> Genethon, Evry, France, <sup>4</sup> Dept of Gastroenterology and Hepatology, Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands
<b>4.</b>	<b>Secretory leukocyte protease inhibitor (SLPI) is a potent regulator of small intestinal myeloid cell driven tolerance</b> C.L. Menckeberg <sup>1</sup> , Y. Simons-Oosterhuis <sup>1</sup> , D.J. Lindenbergh-Kortleve <sup>1</sup> , L. de Ruiter <sup>1</sup> , H.C. Raatgeep <sup>1</sup> , L.A. van Berkel <sup>1</sup> , P.E. van Lierop <sup>2</sup> , E.E.S. Nieuwenhuis <sup>2</sup> , L. de Ridder <sup>3</sup> , J.C. Escher <sup>3</sup> , J.N. Samsom <sup>1</sup> , <sup>1</sup> Laboratory of Pediatrics, Division of Gastroenterology and Nutrition, Erasmus MC, Rotterdam, <sup>2</sup> Wilhelmina Children's Hospital, Utrecht, <sup>3</sup> Dept of Pediatric Gastroenterology, Sophia Children's Hospital, Rotterdam, The Netherlands
<b>5.</b>	<b>Co-administration of 5-aminosalicylic acid to 6-mercaptopurine reduces in vitro hepatotoxicity in HepaRG cells</b> M.M.T.J. Broekman <sup>1</sup> , H.M.J. Roelofs <sup>1</sup> , M. Kerstholt <sup>1</sup> , F. Hoentjen <sup>1</sup> , W.H.M. Peters <sup>1</sup> , G.J.A. Wanten <sup>1</sup> , D.J. de Jong <sup>1</sup> , <sup>1</sup> Dept of Gastroenterology, Radboud University Medical Center, Nijmegen, The Netherlands

Vrijdag 21 maart 2014

**6. High throughput compound library screen to identify selective FXR agonists for inflammatory bowel disease**

*I.T.G.W. Bijlsmans<sup>1</sup>, D. Lelieveld<sup>2</sup>, D.A. Egan<sup>2</sup>, S.W.C. van Mil<sup>1</sup>, <sup>1</sup>Molecular Cancer Research, Section Metabolic Diseases, and <sup>2</sup>Cell Screening Center, Dept of Cell Biology, University Medical Center Utrecht, Utrecht, The Netherlands*

**7. In vitro pancreas toxicity by azathioprine but not 6-mercaptopurine**

*M.M.T.J. Broekman<sup>1</sup>, H.M.J. Roelofs<sup>1</sup>, T. Demir<sup>1</sup>, F. Hoentjen<sup>1</sup>, W.H.M. Peters<sup>1</sup>, G.J.A. Wanten<sup>1</sup>, D.J. de Jong<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology, Radboud University Medical Center, Nijmegen, The Netherlands*

**8. IMPDH2-targeted constraint of cell growth in hepatocellular carcinoma by mycophenolic acid**

*K. Chen<sup>1,2</sup>, K. Man<sup>3</sup>, H.J. Metselaar<sup>1</sup>, H.L.A. Janssen<sup>1,4</sup>, J. Kwekkeboom<sup>1</sup>, D. Sprengers<sup>1</sup>, M.J. Bruno<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, Q. Pan<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>2</sup>Xinyuan Institute of Medicine and Biotechnology, College of Life Sciences, Zhejiang Sci-Tech University, Hangzhou, China, <sup>3</sup>Dept of Surgery, the Hong Kong University, Hong Kong, <sup>4</sup>Division of Gastroenterology, University Health Network, Toronto, Canada*

**9. Ophthalmate levels following paracetamol challenge during hepatectomy: a translational model of liver function**

*K. van Mierlo<sup>1</sup>, S.A.W.G. Dello<sup>1</sup>, M.C. de Jong<sup>1</sup>, H.M.H. van Eijk<sup>1</sup>, T.M. de Kok<sup>3</sup>, J.J. Briedé<sup>3</sup>, S.W.M. Olde Damink<sup>1,2</sup>, C.H.C. Dejong<sup>1</sup>, <sup>1</sup>Dept of Surgery, Maastricht University Medical Center and Nutrim School for Nutrition, Toxicology and Metabolism, Maastricht University, Maastricht, The Netherlands, <sup>2</sup>Dept of Surgery, University College London Hospitals and University College London, Division of Surgery and Interventional Science, London, United Kingdom, <sup>3</sup>Dept of Health Risk Analysis and Toxicology, Maastricht University Medical Center, Maastricht University, Maastricht, The Netherlands*

**10. Qualitative comparison between two mouse hepatocyte culture systems for bile salt signalling studies**

*E.H. Gilgioni<sup>1,2</sup>, I.C. Gaemers<sup>1</sup>, R.P.J. Oude Elferink<sup>1</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, Academic Medical Center, Amsterdam, The Netherlands, <sup>2</sup>Dept of Physiological Science, State University of Maringá, Brazil*

**11. Melatonin suppresses the activation of hepatic stellate cells**

*S. Shahari<sup>1</sup>, L. Almudena<sup>1</sup>, H. Moshage<sup>1</sup>, K.N. Faber<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, University Medical Center Groningen, University of Groningen, Groningen, The Netherlands*

**12. Efficacy of absorbable embolization materials for portal vein embolization to induce liver regeneration in a rabbit model**

*F. Huisman<sup>1</sup>, K.P. van Lienden<sup>2</sup>, J. Verheij<sup>3</sup>, T.M. van Gulik<sup>1</sup>, <sup>1</sup>Dept of Surgery, <sup>2</sup>Dept of Radiology, and <sup>3</sup>Dept of Pathology, Academic Medical Center, Amsterdam, The Netherlands*

**13. Intestinal FXR is essential in the hepatic growth response to prolonged cholic acid exposure**

*M. Doktorova<sup>1</sup>, F.A.J.A. Bodewes<sup>1</sup>, H.J. Verkade<sup>1</sup>, J.W. Jonker<sup>1</sup>, <sup>1</sup>Center for Liver, Digestive and Metabolic Diseases, Dept of Pediatrics, University Medical Center Groningen, Groningen, The Netherlands*

---

**DEGH oral presentations**

**Baroniezaal**

---

**Voorzitters:** K.K. Krishnadath en P.D. Siersema

- 11.30      Translational science teaching Session: Barrett's Esophagus  
Clinical aspects: *prof. dr. P.D. Siersema, MDL-arts, UMC Utrecht*
- 11.55      Translational/basic science aspects: *prof. dr. K.K. Krishnadath, MDL-arts, AMC, Amsterdam*

Voordrachten in het Engels, spreekijd 8 minuten, discussietijd 4 minuten

- 12.20      Overexpression of HOXA13 in Barrett's esophagus is a potential mediator of its posterior phenotype (p. 160)  
*V.T. Janmaat<sup>1</sup>, A.P. Verhaar<sup>1</sup>, M.J. Bruno<sup>1</sup>, M.P. Peppelenbosch<sup>1</sup>, M.C.W. Spaander<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, Erasmus University Medical Center, Rotterdam, The Netherlands*
- 12.32      Comprehensive profiling of plasma microRNAs reveals potential biomarkers for Barrett's esophagus and esophageal adenocarcinoma (p. 161)  
*J.W.P.M. van Baal<sup>1</sup>, P. Bus<sup>1</sup>, C. Kestens<sup>1</sup>, F.J.W. ten Kate<sup>2</sup>, W.H.M. Peters<sup>3</sup>, J.P.H. Drenth<sup>3</sup>, J.M. Roodhart<sup>4</sup>, E.E. Voest<sup>4</sup>, P.D. Siersema<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, and <sup>2</sup>Dept of Pathology, University Medical Center Utrecht, Utrecht, <sup>3</sup>Dept of Gastroenterology, Radboud University Medical Center, Nijmegen, <sup>4</sup>Dept of Medical Oncology, University Medical Center Utrecht, Utrecht The Netherlands*
- 12.45      Lunchbuffet in de expositiehal

---

**DEGH oral presentations**

**Baroniezaal**

---

**Voorzitters:** G. Dijkstra en P.C.F. Stokkers

- 14.00      Translational Science Teaching Session: Inflammatory Bowel Disease  
Clinical aspects: *Dr. P.C.F. Stokkers, MDL-arts, St. Lucas Andreas Ziekenhuis*
- 14.24      Translational/Basic science aspects: *Prof. dr. G. Dijkstra, MDL-arts, UMC Groningen*

Vrijdag 21 maart 2014

Voordrachten in het Engels, spreektijd 8 minuten, discussietijd 4 minuten

- 14.48 Trans-ethnic association study of IBD identifies 14 new disease loci and demonstrates pervasive sharing of genetic risk factors and phenotypic features between Europeans and Non-Europeans (p. 162)  
S. van Sommeren<sup>1,2\*</sup>, J.Z. Liu<sup>3\*</sup>, A. Takahashi<sup>4</sup>, J.C. Lee<sup>5</sup>, B.K. Thelma<sup>6</sup>, R. Malekzadeh<sup>7</sup>, J.C. Barrett<sup>3</sup>, J.H. Cheon<sup>8</sup>, H. Huang<sup>9</sup>, A. Franke<sup>10</sup>, International IBD Genetics Consortium, M. Parkes<sup>5</sup>, A.P. Morris<sup>11</sup>, B.Z. Alizadeh<sup>12</sup>, S.C. Ng<sup>13</sup>, C.A. Anderson<sup>3</sup>, M. Kubo<sup>14</sup>, R.K. Weersma<sup>1</sup>, <sup>1</sup>Dept of Gastroenterology and Hepatology, and <sup>2</sup>Dept of Genetics, University of Groningen, University Medical Center Groningen, Groningen, The Netherlands, <sup>3</sup> Wellcome Trust Sanger Institute, Wellcome Trust Genome Campus, Hinxton, Cambridge, UK, <sup>4</sup>Laboratory for Statistical Analysis, Center for Genomic Medicine, RIKEN, Yokohama, Japan, <sup>5</sup>Inflammatory Bowel Disease Research Group, Addenbrooke's Hospital, University of Cambridge, Cambridge, UK, <sup>6</sup>Dept of Genetics, University of Delhi South Campus, New Delhi, India, <sup>7</sup>Digestive Diseases Research Institute, Shariati Hospital, Tehran, Iran, <sup>8</sup>Dept of Internal Medicine and Institute of Gastroenterology, Yonsei University College of Medicine, Seoul, Korea, <sup>9</sup>Analytic and Translational Genetics Unit, Dept of Medicine, Massachusetts General Hospital, Boston, Massachusetts, USA, <sup>10</sup>Institute of Clinical Molecular Biology, Christian-Albrechts-University of Kiel, Kiel, Germany, <sup>11</sup>Welcome Trust Centre for Human Genetics, University of Oxford, Oxford, UK, <sup>12</sup>Dept of Epidemiology, University of Groningen, University Medical Center Groningen, Groningen, The Netherlands, <sup>13</sup>Institute of Digestive Disease, Chinese University of Hong Kong, Hong Kong, <sup>14</sup>Laboratory for Genotyping Development, Center for Genomic Medicine, RIKEN, Yokohama, Japan
- 15.00 Interleukin-10 inhibits human IFNy-secreting effector T cells indirectly by controlling antigen-presenting cell function (p. 163)  
S. Veenbergen<sup>1</sup>, M.A. van Leeuwen<sup>1</sup>, G.J. Driessens<sup>2</sup>, L.F. de Ruiter<sup>1</sup>, H.C. Raatgeep<sup>1</sup>, D.J. Lindenbergh-Kortleve<sup>1</sup>, Y. Simons-Oosterhuis<sup>1</sup>, L. de Ridder<sup>1</sup>, J.C. Escher<sup>1</sup>, J.N. Samsom<sup>1</sup>, <sup>1</sup>Dept of Pediatric Gastroenterology, Erasmus MC, Sophia Children's Hospital, Rotterdam, <sup>2</sup>Dept of Pediatric Infectious Disease and Immunology, Erasmus MC, Rotterdam, The Netherlands
- 15.12 The role of microRNA-142-5P in experimental colitis (p. 164)  
C. Kunne<sup>1</sup>, M.M.W. Slaman<sup>1</sup>, F.H. van Dooren<sup>1</sup>, S.L. Meijer<sup>2</sup>, K. Fluitert<sup>3</sup>, E.W. Vogels<sup>1</sup>, P.D. Moerland<sup>4</sup>, A.A. te Velde<sup>1</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, <sup>2</sup>Dept of Pathology, <sup>3</sup>Dept of Neurogenetics, and <sup>4</sup>Dept of Clinical Epidemiology, Biostatistics and Bioinformatics, Academic Medical Center, Amsterdam, The Netherlands
- 15.24 Identification of novel non-transcriptionally acting glucocorticoid receptor ligands that suppress T cell activation but lack adipogenic activity (p. 165)  
A.P. Verhaar<sup>1,2</sup>, R. Dvorsky<sup>3</sup>, M.E. Wildenberg<sup>2</sup>, M. Löwenberg<sup>2</sup>, M.P. Peppelenbosch<sup>4</sup>, D.W. Hommes<sup>1,5\*</sup>, G.R. van den Brink<sup>2</sup>, \*Both authors contributed equally, <sup>1</sup>Dept of Gastroenterology and Hepatology, Leiden University Medical Center, Leiden, <sup>2</sup>Tytgat Institute for Liver and Intestinal Research and Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, The Netherlands, <sup>3</sup>Max Planck Institute of Molecular Physiology, Dortmund, Germany, <sup>4</sup>Dept of Gastroenterology and Hepatology, Erasmus MC, University Medical Center, Rotterdam, The Netherlands, <sup>5</sup>Center for Inflammatory Bowel Diseases, University of California Los Angeles, Los Angeles, USA
- 15.36 Differential induction of dendritic cell-mediated T cell tolerance in the small and large intestine (p. 166)  
S. Veenbergen<sup>1</sup>, M.F. du Pré<sup>1</sup>, L.A. van Berkel<sup>1</sup>, F. Luk<sup>1</sup>, Y. Simons-Oosterhuis<sup>1</sup>, J.N. Samsom<sup>1</sup>, <sup>1</sup>Dept of Pediatric Gastroenterology, Erasmus Medical Center, Sophia Children's Hospital, Rotterdam, The Netherlands

Vrijdag 21 maart 2014

- 15.48 Efficacy of a novel JAK1-specific inhibitor in a mouse model of acute and chronic colitis (p. 167)

J. Duarte<sup>1</sup>, L. de Vries<sup>1,4</sup>, F. Hilbers<sup>1</sup>, M. de Winther<sup>2</sup>, M. Sims<sup>3</sup>, V. Ludbrook<sup>3</sup>, M. Woodrow<sup>3</sup>, J. Witherington<sup>3</sup>, G. D'Haens<sup>4</sup>, W.J. de Jonge<sup>1,4</sup>, <sup>1</sup>Tytgat Institute for Liver and Intestinal Research, and <sup>2</sup>Dept of Medical Biochemistry, Academic Medical Center, Amsterdam, The Netherlands, <sup>3</sup>Kinase DPU, GlaxoSmithKline, Stevenage, UK, <sup>4</sup>Dept of Gastroenterology and Hepatology, Academic Medical Center, Amsterdam, The Netherlands

- 16.00 **Abstract and Poster prizes**

- 16.10 Einde programma

**Voorzitters:** J.J. Keller en J.J. Kolkman

Voordrachten in het Nederlands, spreektijd 7 minuten, discussietijd 3 minuten

- 09.30      Gluten degrading enzyme effectively digests gluten in the stomach and small intestine of healthy volunteers (p. 168)

*B. Salden<sup>1\*</sup>, V. Monserrat<sup>3\*</sup>, F.J. Troost<sup>1</sup>, M.J. Bruins<sup>2</sup>, L. Edens<sup>2</sup>, R. Bartholomé<sup>4</sup>, B. Winkens<sup>5</sup>, F. Koning<sup>3</sup>, A. Masclee<sup>1,1</sup>Dept of Internal Medicine, division of Gastroenterology-Hepatology, NUTRIM, Maastricht University Medical Center, Maastricht, The Netherlands; <sup>2</sup> DSM Biotechnology Centre, Delft, The Netherlands; <sup>3</sup> Dept of Immunohematology and Blood Transfusion, Leiden University Medical Centre, Leiden, The Netherlands; <sup>4</sup>Dept of Pharmacology and Toxicology, NUTRIM, University Maastricht, The Netherlands; <sup>5</sup>Dept of Methodology and Statistics, Maastricht University Medical Center, Maastricht, The Netherlands; \*these authors contributed equally to this work.*

- 09.40      High frequency of concomitant immune-mediated diseases in celiac disease in a large Dutch cohort (p. 169)

*Spijkerman M<sup>1</sup>, Visschedijk MC<sup>1,2</sup>, Withoff S<sup>2</sup>, Wijmenga C<sup>2</sup>, Kolkman JJ<sup>1,3</sup>, Weersma RK<sup>1</sup>, <sup>1</sup>University Medical Centre Groningen, Dept. of Gastroenterology and Hepatology, The Netherlands, <sup>2</sup>University Medical Centre Groningen, Dept. of Genetics, The Netherlands, <sup>3</sup> Medical Spectrum Twente, Dept. of Gastroenterology and Hepatology, The Netherlands.*

- 09.50      Relapse rates of type 1 and 2 autoimmune pancreatitis: long-term outcome (p. 170)

*J. Buijs<sup>1</sup>, D.L. Cahen<sup>1</sup>, M.J. van Heerde<sup>1</sup>, E.A. Rauws<sup>2</sup>, L.J. Maillette de Buij Wenniger<sup>2</sup>, B.E. Hansen<sup>1</sup>, K. Biermann<sup>1</sup>, J. Verheij<sup>2</sup>, F.P. Vleggaar<sup>3</sup>, M.A. Brink<sup>4</sup>, U.H.W. Beuers<sup>2</sup>, H.R. van Buuren<sup>1</sup>, M.J. Bruno<sup>1,1</sup> Erasmus University Medical Center, Rotterdam, The Netherlands<sup>2</sup> Academic Medical Center, Amsterdam, The Netherlands<sup>3</sup> University Medical Center Utrecht, The Netherlands<sup>4</sup> Meander Medical Center, Amersfoort, The Netherlands*

- 10.00      Incidence of Microscopic Colitis in the Netherlands. A Nationwide Population-Based Study from 2000-2012 (p. 171)

*B.P.M. Verhaegh<sup>1,2</sup>; D.M.A.E. Jonkers<sup>1,2</sup>; A.Driessens<sup>3</sup>; M.P. Zeegers<sup>2,4,5</sup>; A.A.M. Masclee<sup>1,2</sup>; M.J. Pierik<sup>1,1</sup> Division Gastroenterology-Hepatology, Dept of Internal Medicine, Maastricht University Medical Center+, Maastricht, the Netherlands<sup>2</sup> NUTRIM, School for Nutrition, Toxicology and Metabolism, Maastricht University Medical Center+, Maastricht, the Netherlands<sup>3</sup> Dept of Pathology; Maastricht University Medical Center+, Maastricht, the Netherlands<sup>4</sup> Dept of Complex Genetics, Cluster of Genetics and Cell Biology, Maastricht University Medical Center+, Maastricht, the Netherlands<sup>5</sup> Dept of Public Health, Epidemiology and Biostatistics, University of Birmingham, Birmingham, United Kingdom*

- 10.10      Immunoglobulin-bound bacteria in pediatric IBD patients (p. 172)

*R.A.A.M. Govaarts<sup>1,2</sup>, D. Zaidi<sup>1,2</sup>, R. Valcheva<sup>2</sup>, Y. Lou<sup>1,2</sup>, C.J.J. Mulder<sup>4</sup>, L.A. Dieleman<sup>2,3</sup>, E. Wine<sup>1,2</sup> <sup>1</sup>Division of Pediatric Gastroenterology, Dept of Pediatrics, University of Alberta, Edmonton, Alberta, Canada <sup>2</sup> Centre of Excellence for Gastrointestinal Inflammation and Immunity Research, University of Alberta, Edmonton, Alberta, Canada <sup>3</sup> Division of Gastroenterology, Dept of Medicine, University of Alberta, Edmonton, Canada, <sup>4</sup>Department of Gastroenterology and Hepatology, VU University Medical Center, Amsterdam, the Netherlands*

- 10.20 Lower abundance of Uncultured Clostridiales in PSC patients (p. 173)  
*N.G.M. Rossen<sup>1</sup>, S. Fuentes<sup>2</sup>, K. Boonstra<sup>1</sup>, G. D'Haens<sup>1</sup>, H.G.H.J. Heilig<sup>2</sup>, E.G. Zoetendaal<sup>2</sup>, W. M. de Vos<sup>2</sup>, C.Y. SMAD4 is recognized as a central mediator of Transforming Growth Factor Beta (TGF- $\beta$ ) and Bone Morphogenetic Protein (BMP) signaling pathways which are involved in regulating tumor progression. In general, SMAD4 is considered a tumor suppressor. Here we investigated the role of SMAD4 in hepatocellular carcinoma (HCC). We performed immunohistochemical stainings in paraffin embedded-tissue microarray patient HCC (n=42). Three HCC cell lines were used for functional assay in vitro and in immune-deficient mice. The results were SMAD4 protein level was significantly higher in human HCC tissue compared with adjacent liver tissue (n=42, P<0.05). High SMAD4 levels were significantly associated with higher recurrence rate (p=0.05), shorter time to recurrence (p<0.05) and more tumor lesion (p<0.01). Interestingly, high SMAD4 levels were associated with low p-SMAD 1/5/8 (a downstream target of BMP signaling) expression, both in patients and HCC cell lines. Knockdown of SMAD4 in HCC cell lines showed a significant decrease of migratory and colony formation capacity, whereas ectopic overexpression of SMAD4 resulted in increased migration activity demonstrated by the ring-barrier migration assay. However, knockdown of SMAD4 conferred resistance to the anti-growth effects of BMP4, TGF- $\beta$  and Activin in HCC cell lines. Interim analysis (at day 12) of xenograft experiment showed that Smad4 knockdown appears to delay tumor initiation of HCC cells in nude mice.

Conclusion: Basal SMAD4 expression is required for the anti-tumor function of BMP signaling in HCC. Elevated Smad4 expression correlates with poor outcome in HCC patients and more aggressive phenotype and function of HCC cells.
