PREFACE

Praise being said to Allah Almighty God for all the grace and guidance that has been given to us all, so the Proceedings of the 10th ADRI 2017 International Multidisciplinary Conference and Call for Papers Batam, March 3 - 4, 2017 can be realized. Proceedings contains a number of articles and research papers from lecturers, teachers, students, researchers and / or observer of the development of science and technology.

Proceedings are published in book form only contains abstract, distributed to participants in the form of compact disks (full paper) and published online at:
www.p-adri.or.id/prosiding/prosiding10batam.

Hopefully, these proceedings may give benefit to us all, for the development of science, technology, arts, culture, and sports. In addition, is also expected to be a reference for the nation and state-building efforts so that science and technology become a strong pillar in the face of the ASEAN Economic Community.

Lastly, there is no ivory that is not cracked. We are sorry if there are things that are less pleasing.

Thanks you very much.

Batam, March 3, 2017.

INDONESIA ECONOMIC POLICY PACKAGE VOLUME 5: COULD IMPACT TO THE ECONOMY?

Singagerda, FauraniSanti¹
Imanudin, Barry D'Amazo¹
e-mail: faurani@saburai.ac.id/fsingagerda@gmail.com

Abstract. This study was conducted to analyze each of the points contained in Economic Policy Package Indonesia Volume V released by the Indonesia Financial Services Authority (FSA) in October, where the economic policy consists of three points with respect to the policy of Islamic banking, the elimination of double taxation on property, real estate sector, and a decrease in income tax. The purpose of economic policy is to drive economic growth in Indonesia using an exploratory qualitative approach, in which the phenomena to be observed will be analyzed based on the theories related including previous studies related. The results of the analysis is the application of banking products and simplification of the opening of the office network to support the advancement of Islamic banking, to achieve high employment and economic growth then the elimination of double taxation for property and real estate sector to encourage the advancement of the sector at a time the country's economy. Meanwhile a lower income tax rate resulted in increased state revenues from taxes. With a series of policies that made the FSA contribution to economic growth, it is clearly seen that the FSA brought significant progress in Indonesia's economic growth.
