ABSTRACT

Key words: Using Skype Messenger and Speaking Skill

Background of this study is an effort to know which medium is suitable to use in teaching speaking skill. Indonesian students who have learned English for several years still can not speak fluent and correctly. So the writer thought that there should be a solution to cope with that problem. The writer tried to use skype messenger as a media to solve the problem "speaking skill".

This paper describes about teaching speaking skill using skype messengers of the second grade of SMK Kawung 2 Surabaya. At the first time, they might get struggle when they try to speak, were confused what they must speak, were lack of vocabularies, were passive and looked un-interested in teaching and learning process.

In Conclusion, when they applied and practiced to post their speaking through using skype messenger with their friends, furthermore, they can cooperate in group learn to make a draft, to give comment to their friends' speaking and to revise their speaking
