ACKNOWLEDGEMENT

First of all, I would like to express my gratitude to Allah for always giving me blessing, health, and especially strength for finishing this undergraduate thesis. I would not be able to finish this thesis without His grace blessing and great people in my life.

Second of all, I thank God as He has given me great parents and family. Especially my mother and my little sister, who constantly support, nurture, and encourage me, are the reason why I can finally finish my undergraduate thesis.

Then, I would also like to send my special gratitude to my great Advisor - I, Dra. Rida Wahyuningrum, M.Pd. I thank her for the kindness and for always being really patient in the process of finishing this thesis. Not only patience, but she also gave many advice and guidance from day one until the last. I would also thank to my great Advisor - II, Drs. Johny Sugiono, M.Pd. for the assistance in completing my thesis and helping me at last.

My thanks also go to the all lecturers and my guardian lecturer at the English Department of Wijaya Kusuma University during the years of my study at this university and always supporting me to do this thesis.

After that, I also want to thank my best friends Ovy, Lisa, Yunita, Albert, Kiki, and my lovely fiancé for always patience accompanying me, giving me support until the end and making me happy from when were freshmen up to this point. Then, thanks for my bonita friends “Nord Ladies” who always support from the start.

Finally, I deliver my thanks to all people that I cannot mention one by one, who help me by their own ways as long as I work on this thesis from the beginning to the end. I would give big thanks and love to you all.

Wulan Priscilia Assis Tanti

ABSTRACT

Wulan, P. A. 2018. *Word Formation Process Found In Breaking Dawn Movie Script*. Surabaya : English Education Department, Faculty of Language and Science, Wijaya Kusuma University. Advisor – I : Dra. Rida Wahyuningrum, M.Pd, Advisor – II : Drs. Johny Sugiono, M.Pd.

Keywords: Morphology, Word Formation Process, Breaking Dawn

Words are one of the essential tools individuals use to communicate. As human involved in the field of communication sciences and disorders, and know how important words in language to communicate with others. Humans are creative. Nowadays, in discussing people usually use new words, for example by combining the original words with other words so that it becomes a new word with through the process. The process of forming a new word itself is called the word formation process. Word-formation is the study of words, dealing with the construction or formation rules of words in a certain language. Any kind of word formation process above can be found in written and spoken language in English such as novels, or films.

In this research paper is aimed to investigate word formation process used in "Breaking Dawn" movie script by Melissa Rosenberg. This research paper uses George Yule (2006) theory about word formation process. Then, the methodology of this research is applying qualitative research method to reveal types of word formation processes that found in dialogue in Breaking Dawn movie script.

The result of this study the writer found nine types of word formation processes from twelve types of word formation classified according to George Yule's theory. The types of word formation processes are coinage, borrowing, compounding, blending, clipping, acronym, conversion, derivation, multiple processes. The writer found 50 data of words/terms that concluded in the types of word formation process. The most common word or terms was compounding, there are 16 words/terms that were found. The second rank is derivational with 12 words/terms. And for the other types of word formation which occupying the next position after compounding and derivational is borrowing with 6 words/terms. The fourth is clipping with 6 words/terms. Fifth is coinage there are 4 data found of words/terms. Sixth is blending, there are 2 data found, Seventh is multiple process with 2 data. Next, is from acronym with only 1 data and the last is conversion with 1 data.
